MINERS' PETITION!

Local Option Liquor Law!

RAILROAD BILLS!

Pittsburgh Park!

THE SALARY AND FEE BILL!

THE SENATE INSISTS!

[Special Dispatch to Pittsburgh Gazette.]
HARRISBURG, February 16, 1871.

SENATE.

TEMPORARY ADJOURNMENT.

The resolution from the House adjourning the Legislature from to-morrow till Thursday passed.

MINERS' PETITION.

Mr. GRAHAM presented a petition of three hundred miners of Allegheny county for the extension of the anthracite mining act to the bituminous regions.

REMONSTRANCE AGAINST LIQUOR LAW.

Also a remonstrance from four hundred and eighty-eight citizens of Elizabeth against the local option liquor law.

PETITION IN FAVOR OF LIQUOR LAW.

Mr. ANDERSON presented a petition from five hundred citizens of Allegheny County for a local option liquor law. Very many petitions for local option laws were presented.

RAILROAD BILLS.

Bills authorizing the Western Pennsylvania Railroad Company, Tyrone and Clearfield Railroad Company, York and Wrightsville Railroad Company, and Columbia Bridge Company to sell all their rights and property to the Pennsylvania Railroad Company, and authorizing the latter to purchase the same, were reported favorably.

CUMULATIVE VOTING.

Bills introduced—By Mr. BUCKALEW, authorizing the election of county, ward, borough and township officers by cumulative voting, and regulating the election of County Commissioners and Auditors by the same system.

PITTSBURGH PUBLIC PARK.

By Mr. ANDERSON relative to the Public Park at Pittsburgh, being the bill sent by the City Council, authorizing the Central Board of Education of Pittsburgh to borrow $50,000.

Incorporating the new Market Bridge Company of Pittsburgh.

This is for a springing bridge all the way from Bluff street to Birmingham. The corporators are Jas. Lippincott, W. H. McClellan, E. P. Jones, Max Moorhead, Henry Lloyd, C. H. Armstrong, George Black and others. Capital $250,000.

THE BITUMINOUS MINING BILL

was the special order for March first.

Mr. WHITE moved that all bills for a Constitutional Reform Convention be special orders for next Thursday afternoon. Lost, the Republicans voting aye, and the Democrats voting no.

THE SENATE AMENDMENT TO THE FEE BILL.

Mr. GRAHAM moved that the Senate insist upon its amendment to the Allegheny Salary bill. Carried.

PAY OF DECEASED SENATOR AND REPRESENTATIVE.

The bill from the House paying the salaries and mileage of Representative Campbell and Senator Watt, deceased, to their widows, was passed.

STOLEN GOODS AND RECEIVERS THEREOF.

Afternoon—The following public bills were considered:

[illegible] remedy for the recovery of the value of stolen goods, by allowing suits against persons receiving stolen goods, within six years. Passed.

CUMULATIVE VOTING.

The bill further regulating boroughs was reported by Mr. BUCKALEW, providing among other things for cumulative voting in the election of town Councils. Passed to the second reading.

ONE TERM OF OFFICE ONLY.

A bill from the House, making persons ineligible for County Treasurer or Auditor within two years after serving in that capacity, and repealing the act making the Auditor ineligible for Treasurer within one year after the expiration of his term. Passed.

THE PARK AND GAME BILL.

The bill from the house empowering courts to incorporate park and game propagating associations was passed.

RAILWAYS.

The bill originating in the Senate, authorizing any three persons to organize a Railroad Company to operate five miles under the General Railroad act of 1868, was passed.

BEQUESTS TO BE FREED FROM TAX.

Mr. CONNELL'S bill, relieving bequests for public religious, charitable, educational and scientific purposes, from collateral inheritance tax, was brought up. Mr. Connell favored the bill, but Mr. White opposed it in a lengthy speech and it was laid over.

CONFERENCE ON THE FEE BILL.

The speaker appointed Senators Graham, Anderson and Duncan as a Committee of conference on the Allegheny salary bill.

The speaker of the House cannot appoint his Committee till to-morrow, there being no session this afternoon or evening. Final action cannot then be reached probably till next Thursday, as the Legislature adjourns over at to-morrow noon.

SENATE COMMITTEE A UNIT.

The Senate committee being solid for the Senate bill, the House amendments will in all probability be struck out, as the House delegation is equally divided, and Speaker Webb must give the friends of the Senate bill at least one of the committee appointed.

HOUSE.

CRUELTY TO ANIMALS.

The supplement to the act for the prevention of cruelty to animals was considered. The first section provides that only twenty persons shall be admitted to street passenger cars, and furnished seats. The second section, prohibits cars from stopping except at street-crossings. A general debate of a couple of hours ensued.

Mr. HUMPHREYS moved an amendment imposing a fine of five hundred dollars on managers or directors who require their employees to work more than ten hours per day; requiring conductors to be paid at least two dollars and twenty-five cents per day, and drivers two dollars.

The Speaker ruled the amendment out, as not pertinent to the subject.

Numerous amendments were offered, increasing the number of passengers accommodated to thirty, confining each passenger to one basket, excluding colored people and reducing fare to five cents, all of which were defeated, and the bill finally indefinitely postponed by a vote of fifty-four to forty-two, equivalent to killing it.

MORE ABOUT THE FEE BILL.

Mr. Beardslee, to accommodate Mr. White, tried to get a reconsideration of the House action yesterday, refusing to concur in the Senate amendment to the Allegheny Salary bill and to concede the Senate amendment, but the Speaker ruled that the motion could not be considered, as the bill is not in the possession of the House.

LIQUOR BILLS POSTPONED.

Bills permitting wards, boroughs and townships to vote every three years on liquor licenses, compensating persons injured by the sale or gift of intoxicating liquors, and preventing the sale of intoxicating drinks on election days were all postponed, and made special orders for March 1.

ADDITIONAL JUDGES.

The bill making Westmoreland a separate judicial district was amended by giving the Tenth Judicial District two additional law judges.

ST. LOUIS, MO.

Missouri Legislature on the Indian Territory.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, February 16.—The lower House of the Missouri Legislature has passed the concurrent resolution in relation to the civilized inhabitants of territory west of Missouri and Arkansas, and instructing our Senators and requesting our Representatives in Congress to secure, if possible, the enactment of such laws as will open said territory to the free occupation and settlement of the citizens of the United States, and the establishment of a stable government, and also opposing the recognition of the pretended Confederate Government agreed upon by the several tribes inhabiting the said territory in December last.

41ST CONGRESS.

(THIRD SESSION.)

[By Telegraph to Pittsburgh Gazette.]
WASHINGTON, D. C. February 16th, 1871.

SENATE.

NORTH CAROLINA REMONSTRANCE.

Mr. POOL submitted various affidavits from citizens of North Carolina to verify the signatures to the remonstrance recently presented by himself against the removal of disabilities of Senator elect Vance and Representative elect Waddell of that State. The affidavits set forth that the signatures were made by a person deputed for that purpose at a public meeting, each signer coming up to that person and requesting his name to be put down. This explained why they were in the same hand writing. On Mr. Pool's motion, the affidavits and remonstrances were referred to the appropriate Committee.

CRUELTY TO ANIMALS BILL.

Mr. CAMERON, from the Committee on Agriculture, reported back the House bill to prevent cruelty to animals while in transit, &c., and asked its consideration.

Mr. COLE objected in order that the appropriation bills might not be further delayed.

HOMOEPATHY AGAIN.

The petitions from citizens of Massachusetts for a chair of Homoepathy in the National Institute at Washington, were referred.

Also, the bill to repeal the iron-clad test oath.

LOSS OF THE ONEIDA.

The House bill providing for recovery of damages by the loss of the Oneida was reported without amendment.

RELIEF OF CONTRACTORS.

Mr. NYE, from the Committee on Naval Affairs, reported the bill for the relief of contractors for construction of vessels of iron and steam machinery, with the veto message of the President thereto. The bill was then rejected by 57 to 9—(Ross and Saulsbury).

A SUBSTITUTE.

Mr. NYE then introduced a similar bill with the objectionable clause omitted.

NOMINATION CONFIRMED.

The Senate confirmed the following nomination: Samuel Lynn, of Oregon, Consul at Singapore.

UNION PACIFIC RAIL ROAD.

Mr. THAYER offered a resolution instructing the Judiciary Committee to inquire and report as to the right of the Treasury Department to retain all compensation for services rendered by the Union Pacific Rail Road and its branches, and to apply the same on the interest of the bonds issued by the United States to aid said road, which resolution was agreed to.

CENTENNIAL CELEBRATION OF INDEPENDENCE DAY.

Mr. CAMERON called up the House bill for the Centennial Celebration at Philadelphia in 1876. The bill was read at length, occupying the morning hour, at the expiration of which the appropriation bills came up as regular order business, the question being upon the amendment to increase the salaries of United States District Judges. The proposed increase was retained in the bill by a vote of ayes 30, nays 28.

THE SALARIES AS NOW FIXED.

The following is the scale: Chief Justice of the Supreme Court, $8,500; Associate Justices of the Supreme Court, $8,000; United States Circuit Judges, $6,000; Chief Justices of the Court of Claims and Superior Court, District of Columbia, $6,000; Associate Justices of said Courts, $5,000; United States District Judges, $5,000.

Mr. SHERMAN reported an amendment prohibiting the re-opening of accounts or claims already adjusted.

After considerable discussion on the bill, the Senate at 5:45 went into executive session, and soon after adjourned.

HOUSE OF REPRESENTATIVES.

On motion of Mr. MAYNARD it was ordered that on and after Saturday next the House will meet at eleven o'clock.

CINCINNATI AND SOUTHERN RAILROAD.

Mr. STOKES presented a petition for a Railroad charter from Cincinnati to Chattanooga.

SOUTHERN PACIFIC RAILROAD.

Mr. WHEELER, Chairman of the Committee on Pacific Railroad Companies gave notice that on Tuesday next, after reading the Journal he would report back the Southern Pacific Railroad bill for immediate action.

THE WEST POINT TROUBLES.

The House then proceeded to the consideration of the Report of the Military Committee on the West Point Academy troubles.

Mr. STEVENSON of Ohio, intimated his apprehension that the action on the subject would be a precedent, and that the House would have a West Point case every session. He had no objection to the resolution authorizing the restoration of the three cadets of the fourth class, but was opposed to the 2nd resolution and thought the House in adopting it would be transcending their jurisdiction.

STANDS UP FOR HIS OWN FOLKS.

Mr. JOHNSON argued in support of the additional resolution offered by himself, ordering a court of inquiry as to the conduct of the officers of the Academy. Barnes was cadet of his (Johnson's) own appointment, and he considered he had been shamefully used, and his being dropped from the rolls the most vicious thing of the whole transaction. His constituents felt the indignity deeply.

SITS IN JUDGMENT ON GEN. UPTON.

He denounced Gen. Upton as unworthy to be a pedagogue in a District School.

WAXES PROFANE.

Declared the record against Barnes as false as hell, as false and malignant as the heart of the scoundrel who made it.

HIS FRIEND AND PITCHER.

Mr. NIBLACK eulogized the character of Gen. Pitcher, Superintendent of the Military Academy, as a brave and gallant officer, a man of discriminating judgment, who had no superior in the army. He would vote for the resolution to restore the cadets of the Fourth class, but would vote against the resolution to expel.

SHOWS THAT HE IS DULY RETAINED.

He sent to the Clerk's desk and had read a letter to himself from General Pitcher, requesting him to protect him from undeserved calumny.

A HARD ROW TO HOE.

The letter intimates that the investigation committee were prejudiced against him (Pitcher), that they had only spent eight hours in the investigation, and didn't know what a burden his efforts had been to restore social harmony between the colored cadet and the others.

A THEATRICAL TURN.

Mr. SHANKS protested against the academy as a whole, as nothing but a "School for Scandal," and wanted to rub the whole concern out altogether as a nuisance.

PRO AND CON.

The discussion was continued by Mr. Packard, of Indiana, and Mr. Stoughton, in support of the resolutions, and by Mr. Dyer against them.

WANTS TO SPEAK HIS PIECE.

The hour allowed for discussion having elapsed, Mr. GARFIELD moved to reconsider the vote ordering the main question, so that he might have an opportunity of addressing the House, but the motion was rejected.

MR. BUTLER'S AMENDMENT DEFEATED.

The House proceeded to vote on the resolution and amendment offered by Mr. Butler of Mass., to substitute for the second resolution of the committee directing the expulsion of the ring leaders of the first class and court martialling the rest, a resolution depriving the first class on graduation of the customary furlough. The amendment was rejected yeas 97, nays 111.

The next vote was on Mr. Johnson's amendment as to the additional resolution directing a court of inquiry on the conduct of the officers of the Academy. The resolution was agreed to without the yeas and nays. The vote on division being 85 to 52.

THE FOURTH CLASS CADETS RESTORED.

The first resolution of the Committee, directing the restoration of Cadets Baird, Barnes, and Fleckinger, was agreed to without division. The next vote was on the 2d resolution of the Committee, directing the dismissal of the leaders, and instigators of the first class, and court martialling the others.

Mr FARNSWORTH moved to lay on the table this resolution and the additional resolution offered by Mr. Johnson. Negatived by 33 to 109.

EXPULSION RESOLUTION PASSES.

The 2d resolution was then agreed to—yeas 113, nays 107.

SAFETY ON STEAM VESSELS.

The House then proceeded to the consideration of the bill providing for better security on steam vessels. The bill establishes regulations to be observed by steamers to guard against loss or dangers from fire, leaking, explosions or other accidents. The bill was passed as a substitute for the Senate bill, and the House, at 4:40 P. M., adjourned.

CINCINNATI, O.

Gen. Schenck—Hotel Burned at Mansfield—Letter from the Pope.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, February 16.—Gen. Schenck is in the city to-day.

It is reported W. F. Boaz, one of the Receivers of the Indianapolis, Cincinnati & Lafayette Railroad, has resigned, to take effect in March.

The Thornton Hotel, at Mansfield, was burned this morning at one o'clock. Part of the furniture was saved. Loss about $7,000; partly insured.

The Pope has addressed a letter to Archbishop Purcell, acknowledging the receipt of the communication in which the latter signifies and professes with sincere heart and fulness of faith his adhesion to the dogmatic constitution published in the fourth session of the Vatican Council. The Pope expresses great satisfaction at this testimony of faith and sacredotal feeling conveyed in the letter of the Archbishop, the more so, since it completely refutes the evil reports which certain newspapers have circulated against him.

A large meeting in aid of the Cincinnati Southern Railway has been held in Danville, Kentucky, adopting resolutions asking for a Congressional charter.

CHICAGO.

The Little Church Around the Corner.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, February 16.—An entertainment was given at Crosby's Opera House this afternoon, for the benefit of the "Little Church Around the Corner." There was an immense crowd present, filling every available space and from $1,000 to $4,000 were received, as the use of the Opera House, the advertising and the services of the actors were all gratuitous. The gross amount received will be sent to Mr. Houghton, the rector. It will probably reach $1,800.

On Saturday afternoon, the German Opera Troupe will give a free benefit to the same Little Church Ar ound the Corner.

Marvin Hughitt, Esq., for the past five years General Superintendent of the Illinois Central Railroad, has resigned.

THE WAR.

NAPOLEON'S PROCLAMATION.

VERSAILLES, February 15.—There was an unfavorable impression produced here by Napoleon's proclamation. It is asked what right has a prisoner of war to put forth a proclamation or manifesto of any kind?

THE WISH IS FATHER TO THE THOUGHT.

Favre thinks the Orleans Princes too wise and patriotic to involve the country in civil war, and that the Republic will unavoidably be adopted.

ONLY JUST FOUND IT OUT.

The Paris *Cloche* says communications to the Government by Chanzy prove that the victory bulletins of Gambetta were exaggerated, and his accounts of successes were for the purpose of fostering the hopes of the people. Chanzy has made some painful disclosures as to the condition of the army, and advises France to postpone revenge.

"PORTABLE PROPERTY."

The Prussians have exacted a contribution of nineteen thousand francs from the Commune of Javaque, and the money not being forthcoming they carried off the Mayor and the Countess of Montgomery as hostages.

THE TRIUMPHAL ENTRY INTO PARIS.

It was intended at one time to invite the reigning Sovereigns of Germany to accompany the Emperor and army in their triumphal entry into Paris, but this plan has been abandoned, and the Sovereigns are invited instead to attend His Majesty in his grand entry into his own capital. It is still undecided as to the time the Emperor will return to Germany, but it is thought he will leave Versailles on the 23d inst, travelling through Strasburg, Carlsruhe, Stuttgardt and Munich, and visiting on the way the sovereigns who elected him Emperor, and who will fall into his train to grace his triumphal entry into Berlin. The Emperor will be in Berlin March 8th, when the first Diet of United Germany meets. The Princes who have been attached to headquarters throughout the war are returning home.

THE GERMANS ON THE ALERT.

There are no indications that the Germans consider their work finished, but on the contrary everything is suggestive of the beginning instead of the close of a campaign. They are taking every precaution in case of a renewal of the war, and will be ready to prosecute it with unusual vigor.

DISSATISFACTION.

Dissatisfaction is felt at the presence of Chanzy and Faidherbe, in Paris. It is thought that the oversight in framing the armistice permits these Generals, under pretence of voting, to communicate with the authorities in Paris.

ARMISTICE EXTENDED FIVE DAYS.

LONDON, February 16.—In consequence of certain preparations made in the South of France for calling into service the Military Class of 1872, Bismark will consent to prolong the armistice only five days.

CAPITULATION OF BELFORT.

The capitulation of Belfort has been signed and the garrison withdrawn with arms and baggage.

NO NEW ELECTION NECESSARY.

PARIS, February 16.—It is now reported that no new elections for delegates to the National Assembly will be necessary to this city.

PRICE OF BREAD.

The authorities have fixed the price of bread at fifty centimes per kilogramme.

THIERS THE COMING MAN (?).

The *Journal des Debats* says Thiers is universally regarded as the future President of France, with Favre, Picard and Bouffet as members of the Ministry.

PRESIDENT OF THE ASSEMBLY.

BORDEAUX, February 16.—M. Grevy has been elected President of the Assembly. The total vote cast was 538, of which M. Grevy received 519.

[Special to New York World.]

A PROVISIONAL GOVERNMENT.

BORDEAUX, February 16.—At a caucus held last night, and composed of a majority of Delegates, it was resolved to establish a provisional republic, with Thiers as the President, Favre as Premier, and Duke De Decazes as Minister of Foreign Affairs. The other Ministers are to be M. M. Simon, Picard, Buffet and Barthelay. On the conclusion of peace the Convention will adjourn to Paris, and will submit to the Plebiscite the future form of government.

UNREPRESENTED.

Viscount Enfield said that the Government contemplated closing the British Legation at the minor German courts.

ANGLO-AMERICAN COMMISSION.

Mr. Gladstone made some explanations in regard to the Anglo-American Commission. It was empowered to discuss amicably all differences. Any difficulties arising were to be referred to the home government by cable, and instructions would be returned in the same way.

ENGLAND.

MORE FENIAN EXILES.

LONDON, February 16.—Captain Mackay and three other released Fenians left Queenstown last night for America. There were no demonstrations.

THE QUEEN OF SPAIN

Arrived at Nice on her journey from Florence to Madrid.

A BITTER PILL.

It is asserted that Francisco D'Asia, the husband of the ex-Queen Isabella, has offered to swear allegiance to King Amadeus.

THE EASTERN QUESTION.

In the House of Commons, this evening, Sir John Hay asked whether Government had authorized the statement made by Odo Russell to Count Bismarck on the 21st of November, to the effect that the state of the Eastern question would compel England to go to war with Russia with or without allies.

A PERTINENT INQUIRY.

Sir John wanted to know what preparations had been made to back up that threat. Mr. Gladstone replied that Mr. Russell's arguments were unauthorized, but bore an official character, Russell had been vested with a certain discretion, and no specific instructions had been sent to him. His course in this matter was censurable.

CUBA.

[Special to N. Y. Herald.]

SURRENDER OF AN INSURGENT CHIEF.

HAVANA, February 16.—Count Valmaseda left to-day for Cinco villas, where he is to receive the submission of Villajes, now Chief of that District, who asks to surrender, but only to the Captain General.

FROM VARIOUS SOURCES.

MADRID, February 15.—The *Correspondencia* says that the Government intends to postpone the election in Cuba for the Cortes.

BRUSSELS, February 15.—Orders have been issued disbanding the Belgian militia serving on the frontier.

JAPAN.

Small-pox at Yokohama—Deaths on Shipboard—Teachers in Japanese College Attacked—Mr. Seward's Movements and Speeches—Japanese Students Arrived—Also Chinese Laborers.

[By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, February 16.—The steamship Great Republic from China and Japan has just arrived. The small-pox is bad at Yokohama, a number of the crew of the United States ship Benicia were attacked, and several died. A number of officers and crews of the German ships in the harbor also suffered severely. The disease assumed the form of an epidemic.

On January 13th Messrs. Dallas and Ring employed as teachers in the Japanese college at Yeddo, were cut down with swords, and not fatally but frightfully injured. The assailants escaped.

Mr. Seward left Hong Kong for Singapore, holding a reception first at the American Consulate, at which he made a speech commenting at length on the course pursued by our people towards China, and intimating that we must be prepared to be just towards the people of that country before demanding the extension of our commercial privileges and relations. He thought the future of Japan assured, and considered the condition of affairs in the empire of China not more discouraging than those of Japan eight years since. He returned thanks for the courtesies shown him by natives and foreigners alike, in all ports of both empires. His health is improved.

The Great Republic brings nine Japanese students for San Francisco, and seventeen for New York. She also brings one hundred and sixty four Chinese. There are five thousand seven hundred packages of tea overland for Chicago, and eleven hundred and forty-four for Boston on the vessel, a large quantity of silk for New York, and a full list of freight via Panama.

NATIONAL CAPITAL.

The Bowen Bigamy Case—Jury Fail to Agree—Dispatch from Admiral Lee about the Tennessee—Tax on Scrip Dividends—Bill to be Reported Repealing the Test Oath—Also the Bill to Pay Losses of Southern Loyalists—Bowen Arrested Again—Indian Troubles Apprehended.

[By Telegraph to the Pittsburgh Gazette.]
WASHINGTON, February 16, 1871.

THE BOWEN BIGAMY CASE.

The jury failed to agree in the Bowen bigamy case, after being out all night, and were this morning discharged. They stood eleven for conviction and one for acquittal.

When the jury came in, not having agreed, some one suggested that they be sent back. Judge Wiley replied that if it should be that in any case a juror should get upon a case with improper motives, such juror would be more than a match for eleven others. He did not, however, desire to be understood as making any imputation on the jury. The foreman said that one juror for acquittal had stood out against all the others. The jury was discharged and Court adjourned until the March term, when another trial of Bowen will take place.

TAX ON SCRIP DIVIDENDS.

The question involving the payment of $1,150,000 by the New York Central Railroad, as a tax on scrip dividends, came up before the Commissioner of Internal Revenue this morning. The Solicitor of the Bureau was present. Mr. Elmore opened the argument for the company, which, he insisted, is not liable for the tax, because there are no scrip dividends, but interest certificates, which are not binding on the company and which it is optional with the company to pay; therefore it was not such an obligation as is subject to taxation, and further, that those certificates merely represent the earnings of the company which accrued prior to the passage of the internal revenue law. He presented various papers in support of these and other incidental points. The case was postponed until next Thursday, when Mr. Horace F. Clark will make the closing argument.

INTERNAL IMPROVEMENTS.

The House Committee on Commerce have prepared their annual River and Harbor Appropriation bill, to be reported to the Committee on Appropriations, by whom it will be revised and reported to the House as prepared. It appropriates $4,194,500. Provisions are made for the improvement of fifty-seven harbors, forty-four of which are on the great lakes, two on the Gulf, and the remainder on the Atlantic coast. Thirty-three rivers are also to be improved, and provisions are made for the survey of the long list of other harbors and rivers with a view to bringing them into the future appropriation bills. The Committee on Appropriations will probably reduce many items and omit others before reporting to the House.

INDIAN OUTBREAKS ANTICIPATED.

The Secretary of War is in receipt of a letter from the commanding officer at Fort Dodge, Kansas, stating that a general outbreak of hostilities on the part of the Cheyennes and Arapahoes is expected early in the spring, and that the objective points of the attack will be the frontier settlements of Kansas. General Pope endorses the letter, hoping that the Department of the Interior will at once take measures to satisfy or pacify these Indians, who, he says have just grounds of complaint, and adds that if a second Indian war does come, as it surely will, the military authorities cannot be held responsible.

TRY, TRY AGAIN.

To-day another warrant was issued from the Police Court by Judge Snell charging Representative Bowen with bigamy in marrying Mrs. King while he had a wife living, Frances Hicks, whom he married in 1852, in Augusta, Ga. The warrant was placed in the hands of a detective for service, and he went to Bowen's residence and served the warrant. The latter expressed no surprise other than to ask when they would cease coming after him, and then went with the officer to the Police Court.

THE TENNESSEE—DISPATCH FROM ADMIRAL LEE.

Admiral Lee arrived at Key West the night before last, and the Secretary of the Navy yesterday, was telegraphing to him on other subjects, asked him if he had any news of the Tennessee, and he received the following reply: "No news of the Tennessee; none expected until the Tybee returns from San Domingo the last of the month to New York. I believe she is all right." Signed, S. P. Lee, Rear Admiral commanding N. A. Fleet.

A CLEAN REPEAL OF THE TEST OATH.

The Committee on Reconstruction to-day directed Gen. Butler, Chairman, to report the bill repealing the test oath, in accordance with the recommendation of the President in his message yesterday. Only two members of the Committee are opposed to the repeal.

AN OPEN DOOR—CLAIMS OF SOUTHERN LOYALISTS.

The Committee have agreed to Representative Cobb's bill, entitled "An Act to protect loyal and peaceable citizens of the United States, in the full enjoyment of their rights of person, liberty and property, and to enable such citizens to preserve and perpetuate the evidence of the losses claimed to have been sustained by them, in Alabama, Kansas, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia and Kentucky."

AN ARMY OF OFFICIALS.

Commissioners are to be appointed in each county to take cognizance of offenses by the Ku Klux Klan, and if needs be, the posse comitatus, militia, and the nearest officer in command, or the naval forces of the United States, may be called upon to enforce process.

HEAVY PENALTIES

are prescribed for those guilty of joining combinations, or acting individually in disguise, with intent to do any injury to person or property, as well as for the punishment of high misdemeanors and manslaughter. Interference with the free exercise of the free rights of citizens is also punished.

REVENUE FORCE REDUCED.

The work of reducing the number of Assistant Assessors of Internal Revenue has commenced, and will be rapidly carried out. In a few districts, where the force has already been lessened, the reduction will average at least half of those in the service.

INNOCENT CITIZENS

suffering damage may bring suit against the inhabitants of the county, city or parish in which the unlawful acts of which they complain may have been done.

ARKANSAS.

Resolutions of Impeachment Against the Governor.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, February 16.—The *Avalanche's* Little Rock special says articles of impeachment were to-day presented in the House against Governor Clayton, by Mr. Padgett. The charges are substantially as follows: That he has conspired with members of the Supreme Court of the States maliciously and unlawfully to deprive the Lieutenant Governor of office, when he had been lawfully elected by the people and qualified according to the constitution and laws; has unlawfully removed N. H. Lock, County Probate Judge, and the Clerk of Court, also constitutionally elected; has directed, encouraged and aided fraud in the election of a Senator and three Representatives to the General Assembly from the Thirteenth District; has accepted a pecuniary consideration for issuing state bonds or obligations to aid in favor of the Memphis and Little Rock, Ouachita and Red River Railroad Companies, in utter violation of law and disregard of his official duty as Governor, and other crimes and misdemeanors. He therefore moved that he be suspended from exercising his functions, and that certain members named be appointed as managers on the part of the House to conduct the impeachment, the managers to be instructed to go to the bar of the Senate, and in the name of the House of Representatives of the people, to announce the impeachment of the Governor, and acquaint the Senate that the House will in due time exhibit and make good particular articles of impeachment, and demand of the Senate to take order for the appearance of the Governor.

The motion for the previous question was carried by a vote of 42 to 38, and the articles were adopted by the same vote amid intense excitement. Governor Clayton had a lot of arms removed from the Arsenal to the west end of the Capitol last night, and is said to be swearing in everybody he can get as militia. It is generally understood that the Supreme Judges will be impeached to-morrow, McClure, Searle, Benet, which will stop the Court from rendering a decision in the Johnson case. Associate Justice McClure is made Justice, vice Wilshire, resigned.

BOSTON.

Fishery Question—Important Resolutions.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, February 16th.—The Legislative Committee on Federal Relations to-day reported the following resolutions on the fishery question:

Resolved: That the recent legislation of the Canadian Dominion upon the fisheries upon the northern coast, and the arbitrary and unfriendly action of the authorities there toward our citizens engaged in that important pursuit, constitute a grievance that demands the attention of and protection from the general government and that it is of general moment that the negotiations about to take place between England and the United States should re-establish in a clear manner, and on a firm basis, the ancient and inviolable rights of our citizens on the fishing grounds; should secure to them such privileges as the present state of the fisheries make reasonable and right, and provide indemnity for any unjust seizures that have been made.

Resolved, That the Governor be requested to send a copy of this resolution to our Senators and Representatives in Congress.

A committee of Irish citizens collected $1,500 for the benefit of the released Fenians. A committee was appointed to provide for Col. Halpin on his arrival.

NASSAU.

Military and Naval Movements.

[By Telegraph to the Pittsburgh Gazette.]

NASSAU, February 16.—A flotilla of sixteen vessels is expected; three are to remain and the rest will go to Jamaica. Orders are issued for rations for a battalion of infantry. The Legislature is in session, considering the measures recommended by the Governor to prevent exportation of arms.

CANADA.

Canadian member of the High Commission.

[By Telegraph to the Pittsburgh Gazette.]

OTTAWA February 16th 1871.—Sir John A. MacDonald, member of the High Commission, leaves for Washington on the first of March. Sir George E. Cartier will be the Leader in the House during his absence.

U. S. Vessels Fitting out for France—War Supplies sent to Bordeaux—The New English Army Bill—N. Y. Custom House Investigation.

[By Telegraph to the Pittsburgh Gazette.]
NEW YORK, February 16, 1871.

U. S. VESSELS FITTING OUT FOR FRANCE.

Orders were received at the Brooklyn Navy Yard, from the Secretary of the Navy, to fit out, with all dispatch, the United States ship Supply, of 547 tons, to carry contributions to the suffering inhabitants of France. The Supply is a full-rigged ship of considerable stowage capacity and a good sailer. A draft of men has also been made upon the receiving ship Vermont for the frigate Worcester, fitting out at Boston to carry supplies to Havre.

FRENCH RELIEF FUND—APPEAL FOR AID.

The Chamber of Commerce Committee on the French relief fund held a meeting on Thursday afternoon. The Committee were authorized to send one of their number to France, in accordance with a suggestion from Dr. Bellows, to attend personally to the work of distribution. The store ship Supply will be ready to sail within ten days. The Navy Department offers to place another sailing vessel at the disposal of the Committee, if required, but is unable to furnish a steamer. The Committee appeal earnestly to the public to come forward promptly with cash subscriptions, the necessity of which is made daily more apparent by the constant accumulation of facts showing increasing destitution in France.

THE NEW ENGLISH ARMY BILL.

A London dispatch says: The principal points in Mr. Cardwell's bill on the reorganization of the army, which will be brought forward to-morrow as the great event of the season, are that the purchase system will be abolished, and promotions made by a fair system of seniority and selection. The Horse Guards will be removed to the War Office, thereby abolishing the dual government so long denounced. The appointment of Commander-in-Chief will be in future limited to a term of five years, and that officer will be head of discipline and patronage only.

MUNITIONS OF WAR FOR FRANCE.

The steamship Rega cleared yesterday for Bordeaux with a cargo of munitions of war valued at $398,776. The shipment consists of 1,550 cases harness, 6,248 cases ammunition, 338 ammunition chests, 53 cases implements, 862 wheels, 215 timbers, 75 gun carriages, 18 guns, 16 battery wagons, 99 caissons and 16 forges.

N. Y. CUSTOM HOUSE INVESTIGATION.

Senator Patterson left Washington last night for this city, where he will meet the other members of the Sub-committee on Retrenchment to continue the investigation into the affairs of the Custom House. All the members of the Sub-committee are expected to be present.

ARRIVED.

Steamship Peoria, from Havre.

THE RIVERS.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, February 16.—River fourteen feet one inch, rising slowly. Arrived—Dove No. 2 from Kentucky River; Major Anderson from Wheeling; Robert Hay from Waverly. Departed—Dove No. 2 for Kentucky River. Weather clear; temperature 41 degrees.

CAIRO, February 16.—Tyrone, Nashville packet, at 9 P. M.; Arkansas Belle, Evansville packet, at 11; J. W. Lewis, New Orleans to St. Louis, at 11; Great Republic, New Orleans to St. Louis, at 2; Collier, Pittsburgh to St. Louis, at 6; Bon Accord, Cairo to St. Louis, at 7; St. Joseph, Memphis to St. Louis, at 10; Antelope, St. Louis to Louisville, Mollie Able, St. Louis to New Orleans, at 2; Rubicon, St. Louis to Vicksburg, at 4; Mary E. Forsyth, St. Louis to New Orleans, a 5; Grand Tower, St. Louis to New Orleans, at 8. River fell ten inches. Weather cloudy; mercury 58 degrees.

ST. LOUIS, February 16.—Arrived—Dexter, from New Orleans, Belle of Memphis, from Memphis. Departed—City of Vicksburg, for Vicksburg, and several local packets. River stationery, with seven feet water to Cairo. Weather clear and warm.

MEMPHIS, February 16.—Weather clear and pleasant. River falling. Up—Charles Bodman, Nick Longworth, Continental, Armadillo. Down—P. W. Strader, Mary Houston, John Kilgour.

NEW ORLEANS, February 16.—Arrived—Belfast and Potomac. Departed—H. C. Yaeger, Susie Silver, Lorna. Weather cloudy with a light rain.

VICKSBURG, February 16.—Down—Olive Branch. Up—Glasgow, Arcause. Joseph Howard, R. E. Lee. River rising. Raining and cool.

NASHVILLE, February 16.—The river commenced falling this morning, but is again swelling—seven feet large on Harpeth shoals. Weather fair and warm during most of the day; cloudy to-night. Arrived Umpire from the Upper Cumberland, Talisman from Cairo. The competition between the river and rail for the Upper Cumberland river tobacco, now arriving in considerable quantities, is very spirited. Thus far tobacco has gone by rail.

LOUISVILLE, February 16.—River is slowly falling, four feet scant in Indiana Chute; three feet on the Rocks; 6 feet in the canal. Weather clear and spring-like. Arrived—Champion from Memphis; Pink Varble from Arkansas River; Argosy and barges. Leonidas and Alice Dean, from Cincinnati; Duphalied and Champion for Cincinnati; Alice Dean for Memphis; Argosy and barges for city of Quincy; Leonidas and Indiana for New Orleans. The Alice Dean has Samuel J. Hall's freight. The Hale returns to Eureka Docks at Cincinnati. The Glasgow, a larger boat, takes the place of the Pink Varble on the Arkansas River trade. The Robert Mitchell leaves for New Orleans to-morrow.

PHILADELPHIA.

Union League Meeting—Policy of the League.

PHILADELPHIA, February 16.—The National Executive Committee of the Union League of America, held a meeting in this city to-day, at which a series of resolutions were presented, favoring universal amnesty as soon as the same can be effected, endorsing the efforts being made throughout the Union to elevate workmen by means of labor unions, favoring a judicious reform in order that the necessaries of life may be imported free of tax, and calling on the Republican party to stand by the administration of President Grant. The resolutions were warmly discussed and referred to a Committee consisting of Governor Geary, Governor Wm. A. Newell and Thos. G. Baker, with instructions to embody the same in an address to the people of the United States. The Secretary was directed to take measures to organize State Councils in Kentucky and other States. The Committee adjourned to meet at Washington in April.

POUGHKEEPSIE, N. Y.

Another Hudson River Disaster.

[By Telegraph to the Pittsburgh Gazette.]

POUGHKEEPSIE, N. Y., February 16.—The four o'clock train to-day from New York over the Hudson River Railroad ran off the track two miles north of Greenbush. The baggage and drawing room cars were thrown down an embankment and burned. The mails and baggage were saved. All the passengers were got out in safety, but one went back into the drawing-room car to look for some article, when the gasoline in the burning car exploded, and he was burned, but it is thought not seriously.

EVANSVILLE, IND.

Collision on the River.

[By Telegraph to the Pittsburgh Gazette.]

EVANSVILLE, February 16.—The tug Fearless collided with the steamer Frank Forrester about two o'clock this morning about five miles above the mouth of the Wabash River. While under moderate headway a barge ran into the tow of the Forrester, and crushing into the upper deck tore away a portion of the upper works and started the boilers from their beds. The prompt action of all hands on the Forrester barely saved a fire. It damaged the Forrester about $2,000. She returned to this port about two o'clock this afternoon.

The Art of healing, as practiced by Dr. Sangrado in Gil Blas, consisted in free blood letting, and copious draughts of warm water. The method of the best modern practitioners is to let the blood *alone*, and to use moderately but steadily. Pier, Dannals & Co's cream ale.

AUSTRALIAN NEWS.

THE steamship Moses Taylor arrived at San Francisco on the 18th inst., from Honolulu, where she had duly connected with the City of Melbourne.

NEW ZEALAND.

THE New Zealanders are turning their attention to silk culture.

A NEW industry has been initiated—the making of hats, mats, &c., from the leaves of the nikau palm.

IN the Waikato some reports are circulated of intended attacks on the part of the natives. They are not generally credited.

BANDMAN, the actor, is in New Zealand. On the 10th of January he gave a Shakesperian entertainment, at which the Duke of Edinburgh was present.

PARLIAMENT has been dissolved and the general elections are about taking place. An exciting contest is anticipated, although it is believed the people are strongly in favor of the existing government.

THE condition of the gold field is satisfactory, and the flax industry is once more being taken up energetically. Our manufacturers are determined not to be beaten, and have ample assurance that their perseverance will be rewarded.

THE Auckland *Herald* says: Her Majesty's ships Clio, Galatea and Virago are now in port, and there has been a good deal of gaiety in consequence. His Royal Highness Prince Alfred, Captain of the Galatea, has met with much hospitality, and has rendered himself very popular by his appearance more than once in the orchestra of our Choral Society's Concert room.

LAST mail took to England the intelligence of the murder of Mr. Todd, a government surveyor, whilst engaged in recutting the boundary line of the confiscated lands in Pirongia. From circumstances since brought to light, and from the avowal of the natives themselves, there can be no doubt the murder was intended as a challenge to the Government on the part of the landless rebels. A deputation of friendly chiefs to the King, asking that the murderers might be given up was unsuccessful, and the Defence Minister has issued a circular to the natives recommending that the culprits be handed over to avoid further complication.

THE brig *Deva*, bound from New Caledonia to Newcastle in ballast, twelve days out, was abandoned thirty miles from Port Morquerie.

THE first of the locomotive engines made in this colony, under Messrs. Vale & Lacey's contract with the Railway Department, has reached the Redfern terminus.

NEWS has reached Sydney that the remote and lonely island in the Pacific, called "Sunday Island," has been subjected to a terrible volcanic eruption. The inhabitants had to leave for Norfolk Island.

SUCH a cold and stormy Christmas has not been known in Sydney within the memory of man. In many parts of the interior there has been a sudden rise of waters, and an inundation of low lying countries.

THE Legislative Assembly voted £125,300 for defraying the expenses of the various departments of the Government for the month of January, 1871, this amount being on the basis of the expenditure sanctioned for 1870.

THE distress occasioned by the inundations in the valley traversed by the MacLeay is found to be extensive and severe, few of the settlers having escaped from the loss of crops, and many of them having been rendered homeless and destitute.

ON December 7th, an extraordinary thing occurred at Muswellbrook. A swarm of bees alighted on the head of a valuable horse, belonging to Mr. Hall, of Dartbrook. The insects could not be dislodged, and the unfortunate animal had to be shot by the police.

THE value of the exports (exclusive of gold) from this colony last year, as shown by the Statistical Register, was:—wool, £3,164,442; live stock, £875,698; ditto, seaward, £42,150; tallow, £210,633; skins, etc., £59,527; preserved meats, £54,044; bone dust, £5,656; total, £4,411,559.

NEW SOUTH WALES.

THE Sydney *Herald* of December 31st says: The principal fact of this month is the resignation of the Cowper Ministry. The Ministry, on the 7th inst., tendered their resignation to his Excellency, and now only retain office until a new Administration shall have been formed. Sir James Martin was at once sent for, but the new Ministry has not yet been constituted. Mr. Charles Cowper (the late Colonial Secretary) has accepted the appointment of Agent General in London.

Women as Attorneys in Iowa.

[From the Chicago Legal News.]

The following is the law of Iowa, passed at the last session, striking the words "white male" out of the statute relating to the admission of attorneys, and inserting the words "or she," so as to provide for the admission of women to the bar:

"CHAPTER XXI.

"An act to amend Section 2,700, of 114, of the revision of 1860.

"SECTION 1. *Be it enacted by the General Assembly of the State of Iowa*, That Section 2,700, of Chapter 114, of the revision of 1860, be, and the same is hereby, amended, by striking out the words 'white male' from the first line of said section, after the word 'he,' the words 'or she.'

"Approved, March 8, 1870."

Iowa is the first State that has, by express statute, provided for the admission of women to the bar.

LITERATURE, MUSIC AND ART.

JOHN ESTEN COOKE'S Life of Genera Lee will shortly appear.

AN English magazine publishes a valentine by the late Charles Dickens.

A Fine work on European spiders has just been issued at Upsala. Singularly enough, it is printed in English.

MERCADANTE has left an uncompleted opera called "L'Arlano di Brono." He had only reached the finale of the second act.

SWINBURNE, the poet, goes to bed every night "confused" with absinthe. He is soon to appear before the public as a novelist.

MORTON HOUSE, a Southern novel by the authoress of that crazy and painful novel Valerie Aylmer will soon be commenced in Appleton's *Journal*.

APPLETON has published "The Recovery of Jerusalem" a narrative of the recent explorations and discoveries among the ruins and debris of the Holy City.

THE first volume of Darwin's new book "The Descent of Man" which will doubtless be the scientific sensation of the season, is to be issued by D. Appleton & Co. this month.

APPLETON announces as in press a couple of volumes of poems by Miss Yonge and a few gleanings of recollections of Rev. John Keble, gathered by several friends.

LIPPINCOTT has just issued the final volume of Allibone's Dictionary of Authors, as well as the last volume of the Pronouncing Dictionary of Biography and Mythology.

WHY do the opera troupes invariably come here shortly after Ash Wednesday? They must know that a large number who would gladly listen to them will not go during Lent.

SOMEBODY asks the Washington *Chronicle* whether the carnival is to be a respectable, jolly affair, or a "drunken, ridiculous carousal." The *Chronicle* says it "gives it up."

ULLMANN is expected to give concerts in Vienna in the month of March, with ten principal artists instead of the four who have hitherto characterized the Carlotta-Patti concerts.

MERCADANTE'S place at the head of the Naples Conservatorio will, it is believed, be occupied by Verdi; failing his acceptance of the post, Petrella, a well-known composer, is spoken of.

CORTESI'S new opera, "La Colpa del Cuore," has only been performed six times at Florence, owing to the closing of the Pagliano Theatre, but the Italian musical critics appear to consider it a work of real importance.

FORTY thousand books—some of them very valuable ones—have been sent from the Royal Library at Kenigsburg to replenish the Strasburg Library. They are mostly works of which the Kenigsburg Library retains duplicates.

THE "Daughter of an Egyptian King," a novel from the German of Ebers, a new and cheap edition of "Roba di Roma," by W. W. Story, and "In Exile," a famous anonymous novel, anonymously translated, are among the books soon to be issued by the Lippincott's.

THE New York *Tribune* says: "One hears of extravagant prices paid by the magazines for literary articles, but the prices are usually exaggerated or imaginary. The best rate given by the *Atlantic*, even to such eminent and favorite contributors as Holmes, Emerson and Lowell, is $250. The general price for magazine articles is rarely more than $100."

HARPER'S MAGAZINE for March has a poem by the lamented Alice Cary, an extract, from Thurlow Weed's Autobiography, upon General Winfield Scott, a poem by Miss Harriet Prescott Spofford, and the usual well chosen miscellany besides further chapters of the three current serials. The Easy chair is of course, as usual, the best part of the whole.

THE March number of Lippincott is a very full and excellent one. The articles which, on account of their authors will, doubtless attract the most remark are "A tale of the present war," by Ouida, "The Blood-Seedling," by John Hay, and "Moral of the Franco-Prussian War," by Hon. Amasa Walker. Our monthly gossip is always a charming feature of this magazine.

J. H. BEARD has begun a cabinet picture entitled "The Innocents Abroad," in which two pups are represented as astray from home, and at the moment find themselves upon a cliff, where they appear to be making the air vocal with their howls. A finished picture in his studio is entitled "The Growing Danger," and shows a group of puppies sleeping; around them are a number of keen old rats, who are evidently dismayed at the prospective strength of their natural enemy the dog.

GUSTAVE DORE is described as being in dress and appearance German rather than French. Externally he is joyous, hearty and genial, but underneath this outer expression is a morbid melancholy; and, with health and prosperity, and world wide fame, he continually wishes himself dead. He is said, despite his masterly renderings of the Bible subjects, to be without religion. His works are counted by thousands, and yet he is only thirty-eight years of age, and looks scarcely thirty.

THE State of Connecticut is rich in the possession of Gilbert Stuart's Washington, which hangs in the Senate chamber. This celebrated picture was painted for the State of South Carolina, by order of the Legislature, but rejected on the ground that the order was given for a portrait of General Washington, and the artist had painted him in citizen's dress. Stuart then set to work to paint the portrait as desired, but he had lost his enthusiasm, and the result was a work very inferior to the first.

"BY his own might," translated from the German of Wilhelmina von Hillern, author of Only a Girl; A Woman's Life by Margaret Hosmer; The life and writings of Alexander James Dallas by his son George Mifflin Dallas, and the first volume of the new Bible commentary,—containing the Pentateuch, The Holy Bible, according to the Authorized Version, A. D. 1611. With Explanatory and Critical Notes, and a revision of the Translation. By Bishops and Clergy of the Anglican Church are the most important of the books announced as in press by J. B. Lippincott & Co.

THE New York artists are not entirely pleased with Thomas Nast for being so successful, and declare that he knows nothing about art; that he has no idea of proportion, and is altogether incapable of drawing, and that the fact that the public admires him is only an indication that the public is an idiot. The other day a journalist happened to praise the clever caricaturist to an artist, who said, "What! do you pretend to tell me that Nast knows anything about art? The idea is absurd! Why, Nast is the Director of a bank up town, and is worth a hundred thousand dollars. Did you ever hear of a real artist who was ever worth anything?"

THE new volume of Hans Andersen's writings which Hurd & Houghton have just ready, is his "Stories and Tales." It contains about one half of the shorter stories which have made him most famous. The volume is a companion to the one entitled "Wonder Stories," published last year and the two contain the only collection, now published in uniform style. It has been carefully edited after the latest Copenhagen edition of Andersen's works, which stretches out into twenty-nine volumes, and it has a specially interesting preface in a translation from the Danish of Andersen's autobiographic account of the incidents that gave rise to his famous little stories, and the order in which he wrote them.

BRET HARTE'S popular reputation has been made by a quaint copy of verses which appeared in *The Overland*, some five or six months ago, entitled "The Heathen Chinee"—a title which is one of the bits of small change now current in the circulating medium of newspaper expression. Its quaint lines—the "ways that are dark and tricks that are vain," and the "smile that was childlike and bland"—are of daily use. The remarkable popularity of the "poem" is thus seen; and yet, so different was Mr Harte's estimate of its quality, that he kept it several months, regarding it more as a bit of the by-play of leisure work which most authors of this kind are wont to do in their spare hours, and allow to accumulate in their portfolios as unworthy of serious regard. Happening to want a poem for *The Overland*, and the "Heathen Chinee" being the only thing available, he had almost determined to write one; however, he summitted the "Heathen" to a friend—a person fortunately, of the soundest literary judgment, saying at the time that he did not like to use it for the magazine, as it was of too light and trifling a character. The critic's verdict was rendered short, sharp and decisively in its favor; and in the ensuing number the since famous verses made their appearance.

THE DAILY GAZETTE.

OFFICIAL PAPER Of Pittsburgh, Allegheny City and Allegheny County.

GAZETTE BUILDING: Corner of Sixth Avenue and Smithfield Street.

FRIDAY, FEB. 17 1871.

HEADQUARTERS REPUBLICAN STATE CENTRAL COMMITTEE of Pennsylvania, No. 1105 Chestnut Street, PHILADELPHIA, January 23, 1871.

In pursuance of the Resolution of the Republican State Central Committee, adopted at Altoona, August 16, 1870, a State Convention, composed of delegates from each Senatorial and Representative District in the number to which each district is entitled in the Legislature, will meet in the Hall of the House of Representatives, at Harrisburg, at 12 o'clock, noon, on the 10th DAY of MARCH, A. D. 1871, to nominate candidates for Auditor General and Surveyor General, and to take action upon the question of Constitutional Reform, and for the transaction of such other business as may be brought before it.

MAHLON H. DICKINSON, Chairman Executive Committee of State Central Committee.

GEORGE W. HAMERSLY, M. S. QUAY, JAMES W. M. NEWLIN, Secretaries. ja27

THE cost of the Constitutional Convention in Illinois was $199,164.93. Of this sum nearly one-half is used for printing and reporting.

IT IS now stated that the dowry voted by the House of Commons to the Princess Louise was £30,000, instead of £3,000 as at first stated.

THE State Liquor Law of Ohio gives to a wife an action for damages against the man who sells liquor to her husband. The consequence is that men go now to drinking saloons, fully armed with cards from their wives, waiving the right to any damages.

A FRENCH PAPER publishes the information that the assassination of General Prim was the first of one hundred and ninety-one in all, that a secret society have sworn to perpetrate. These one hundred and ninety-one are the Deputies, who voted for the Duke of Aosta.

THE London *Post* publishes a letter asserted to have been written by Prince Charles of Roumania, in which he says that he has been of little use to the country, and hints very strongly of a return to an independent life, free from cares, and blessed with domestic happiness.

ONE of the latest Democratic jokes arises over the fact, that a large crowd of masked horsemen took ten negroes out of the Union county jail in South Carolina, and murdered them. Of course the masked horsemen were not Ku-Klux, but we would not be surprised if Democratic journals will discover that they were all negroes. South Carolina is getting up a little work for the Investigating Committee.

EDWARD H. RULOFF, recently convicted in Binghamton of murder, very suddenly became crazy. His first exhibition of madness consisted in his positive refusal to wear any clothes. This not being sufficient, he has taken to writing letters to the Binghamton *Democrat*, claiming to have seen the sacred symbol, M. N. S. O. R., and full of equally mysterious expressions. If this fails, we suppose the sentence of the law will be carried out.

THE ARGUMENT used yesterday in the House of Representatives at Washington, by Mr. Maynard, in favor of placing safeguards around the polls throughout the land, that the safety of the Republic depended on the purity of the ballot-box, and the proper exercise of the elective franchise, will appeal with powerful effect to the heart and understanding of every true patriot, whilst it will be opposed, as a matter of course, by every ballot box stuffer and repeater from Maine to Texas.

IT WILL be generally regretted that another debate is in prospect, over the annexation of San Domingo. The Indiana Legislature having instructed her Senators to opposed annexation, Senator Morton has given notice he will call the resolution up. There is no use in it, for every body understands it, coming, as it does, from the Indiana Legislature, that is now trying to crawl out of her ratification of the Fifteenth Amendment. It ought to have no weight with Mr. Morton, as it will not have with the public.

CERTAIN CLAIM AGENTS in Memphis, Tennessee, are playing a "heathen Chinee" game that will probably be the death of them. The bounties to colored soldiers are now paid through the Freedmen's Bureau. These Claim Agents are desirous of preventing this, and to have all appropriations for that object defeated, in order that the money may pass through their hands. We have so little faith in Memphis (Tennessee) Claim Agents that we are frank to confess that under such an arrangement, very little of the claim would reach the colored soldier.

SOME of the city papers are laboring to produce the impression that in our advocacy of the Fee Bill we are making war on certain county officials, individually. The motives and animus of these papers are well known. But with these we have nothing to do. Our sole object in the advocacy of the bill, as it has been sent back to the House, is to secure the reform which, it is generally acknowleged, is needed in the administration of the affairs of the county, and to urge upon our representatives the importance of keeping faith with their constituents. We utterly disclaim having any personal antipathy against Mr. Joseph Ross, or Coroner West. We stood by these gentlemen when those very persons, who are now using their utmost endeavors to show that it is a personal quarrel between them and us, opposed their nomination, and urged upon us to do the same, alleging, at least in one case, incompetency for the position. We are still the friends of these gentlemen and hold them in high esteem, but no personal regard which we entertain for them will prevent us from redeeming the pledges which we, in common with the Republican party, gave last fall.

DISCLAIMER.

An article appeared in yesterday's GAZETTE contributed by a correspondent, who by reason of his habit of writing on subjects outside the arena of politics and only upon general moral, social or scientific topics, and always handling such with ability, has been ever welcome to our columns, and this being the range of subjects selected by him, we frequently send his contributions to the composing room unread.

The article referred to as in Thursday's GAZETTE, entitled *"Great Frauds"* was given to the press unread and challenged. We regret this exceedingly, and feel sure that the writer himself would regret it as sincerely if he were in possession of all the facts in regard to the rumored changes in the management of the great corporation referred to. No official announcement has as yet been made of any change having taken place in the management of the Pan Handle Railroad. If any should be made, we have good reasons for believing, it will be for the benefit and best interests of the stockholders and all concerned. To this subject we may revert in to-morrow's issue.

IMPORTANT COAL BILL.

We publish to-day the bill entitled "an act to extend to the bituminous coal sections of the Commonwealth the provisions of the act providing for the health and safety of persons employed in coal mines approved the third day of March, A. D. 1870."

We called the attention of our citizens to this bill some time since, and urged that some immediate action be taken with regard to it. It is a very important act to those engaged in the business of mining coal, and demands some investigation. It will be seen by the present bill, that *all the provisions* of the act of March 3d, 1870, are extended to the county of Allegheny along with other bituminous coal counties. Now there are very many provisions in the act referring to the mining of anthracite coal, that, we think, ought not to be made to apply to the working of bituminous coal mines, because they would be burthensome and oppressive, without benefit to any one employed in, or to the owner of, such mines.

We do not however propose to raise objections to the bill. It is at present before the Senate, and it has been made the special order for Tuesday next. If our coal men do not desire a law to be passed of this nature they must attend to the matter at once. Otherwise we suppose after due notice has been given, should no objection be made, the bill will not, probably, be fought.

FRANK BLAIR.

Senator Blair has duly put in an appearance in the debate over the joint resolution of the Indiana Legislature, withdrawing the ratification of the Fifteenth Amendment by that State. It is somewhat amusing to follow up the argument of Blair on the question. The ground taken by Senator Morton was, that it was absurd to deny now the validity of the former ratification of that amendment, when the question had already been decided in favor of the legality of that ratification, by the Supreme Court of the State of Indiana. To this Mr. Blair replied that the reason Mr. Morton did not go to England as Minister, was because he was afraid that a democrat would occupy his place in the Senate. Perhaps the worthy man was able to see what that had to do with the question, but we undertake to say that nobody else ever will. But Mr. Blair then arraigned the Republican party in a violent speech over negro suffrage, and all the other slightly distasteful actions of the Republican party, and having thus gratified his disposition to abuse, concluded by saying that he considered the Ffteenth Amendment now a law of the land. It would have troubled anybody but Frank Blair to have made this confession after the speech he had already made, but there is nothing troubles him. He was talking—as usual—against time, and succeeded so well that the Senate adjourned. The only significant part of the whole debate, is in the fact that the movement of Indiana foreshadows the future efforts of the Democratic party. Blair, however has gone back on them. Their great leader declares he regards the Fifteenth Amendment as a law.

COLORED JURORS.

"FORTY NEGROES FOR JURORS.—The Radical authorities of Allegheny, the banner county of Radicalism, have capped the climax of their devotion to the cause of Radicalism by returning forty negroes to serve as jurors in the several courts of the county for the coming year. This is sufficient to constitute three full juries, with four to spare. But it is not the design to put them all together on the same jury, but to intersperse them among white jurors, in order the more fully to display the beauties of Radicalism and the harmonious working of the machinery of the Radical party. Well, if the white men of Allegheny county, who have suits to be tried in our courts, are willing to submit them to negro jurors, it is not our business to complain. All we desire to do is to call public attention to the fact, and to "render unto Caesar the things that are Caesar's," so that the radicals may have all the glory and honor of the new order of things, all of which they are justly and exclusively entitled to."—*The Paper.*

In replying to the above article we would remark, 1st. That the forty persons mentioned were selected as the most intelligent, moral, and educated of the colored population of our county. 2d. There is not one of them, upon whose honesty and judgment, we would not be willing to stake all our fortune—yea our life. 3d. Notwithstanding this contemptible sling of *The Paper*, the fact remains that the Fifteenth Amendment is a part of the law of the land, and colored people are not only entitled to vote, but also entitled to seats in the jury box. 4th. If any prejudiced and narrow-minded individual like the man who wrote the above article in *The Paper*, shall be so unfortunate as to have a law suit, he has the right to object to any juror sitting on his case, be that juror white or black. 5th. The names of all the jurors are placed in one wheel, and are drawn out by a person whilst blindfolded. If it shall so happen that forty of the white, or forty of the colored citizens shall be drawn out at one time, the law will not oppose the jury thus drawn, on that account. 6th. Whilst we have no respect for the sentiment cut from *The Paper*, we will announce for its benefit that some of the names of the colored jurors were placed in the wheel or on the list by Mr. Hayden, Democratic Jury Commissioner, so its attempt to make party capital, by appealing to the prejudices of its readers, will fail. Does *The Paper* deny the right of colored citizens to serve on the jury? Give us a square answer, yes or no.

HONEST BALLOT.

The effort of Congress to pass a bill to enforce the rights of citizens of the United States under the Fifteenth Amendment, to vote in the several States of the Union, has been met by fierce Democratic opposition. Democracy has placed itself in antagonism to honest voting for a long time, and glories in the fact that it is the outspoken champion of fraudulent voting. It is all idle talk about having unity of sentiment on the subject of purifying the ballot box, because Democracy does not want it purified and don't intend that it shall be if it can be prevented. Purification of the ballot box would ensure Republican success, and Democratic defeat, and this one fact will account for the storm of opposition raised in the House over the bill by the Democracy.

But the bill has passed in the House by almost a strict party vote, and the country will be that much relieved from the strife of the opposition. The only persons it can possibly affect unfavorably will be those who make the attempt to vote fraudulently, while it still further protects, every honest citizen, desirous of casting his legal vote. There is no favoritism shown by the bill, no advantage offered to either political organization provided honesty only is intended. It refers only to the election of Congressmen, and does not interfere in any way with any other elections.

Mr. Cox of New York, grew highly Democratic in his opposition to the bill. After exhausting all his stock of expletives, he made foolish and nonsensical threats of what the Democratic party in the State of New York would do, in the event of any Federal interference. He promised that the State Military should meet the Federal Army—but what would be the consequence he did not state.

Democracy, not many years ago, had the power of the Government in its own hands. It had no hesitation of pushing the Federal forces all over the Union, and compelling all citizens to assist in the capture of fugitive slaves. Then as now, it truckled to the South, and then as now it gloried in its bravadoes. In course of time a rebellion did actually spring up in this country, and Democracy—the present Democracy—allowed the South the privilege of fighting it out alone, while it stood on and talked "big utterances." We really thought that we had passed the day, when any man would be dunce enough to make use of these idle and silly threats, but it appears as though Mr. Cox continues in that line.

The country will be rejoiced at the effort of Congress and give any such law a cordial and hearty welcome. The Government is fighting with those who to-day seek to destroy its greatness, and would dishonor it by turning it back to its old barbarous code, that refuses to give a man the privileges of his manhood. What they are unable to do by honesty, Democrats are trying to do by fraud. A fair open appeal to the people always defeats them, but repeating is a weapon that well handled might secure a victory. It is for this reason Democracy is opposed to the present bill—it sees in the future its utter discomforture and defeat under such rules and regulations as are embraced in the Act.

"VALLEY."

Mark Twain Literary Society.

EDITORS GAZETTE: The Mark Twain Literary Society, which meets fortnightly at the "Valley" school-house, Findley township, is in the full tide of success.

At the last meeting of the Society, Mrs. C. H. Burns was elected President; Miss Allie G. Hayes, Vice President; Miss Mary A. Leech, Secretary; and Mr. P. S. Meanor, Treasurer. This goes to show that the Society is all right on the "Woman's Rights" question. Mrs. C. H. Burns has already served one term as President, and having discharged the duties of the office fearlessly, the "Mark Twainers" unanimously agreed to re-elect her.

Two little girls, Mattie J. Stewart and Lettie Burns, gave very fine declamations. Two other little girls, Ida and Emma Marshall, sang a beautiful song entitled "Nobody's Child." It was finely rendered, considering the age of the singers, and was received with delight. Misses Willie May Burns, Mattie Stewart and Ida and Emma Marshall gave a concert declamation entitled "Liberty and Union." It was well spoken and showed that the teacher and the little speakers had given the speaking concert style considerable attention.

The "big folks" then branched out, and a poetical dialogue, "The Crowning of Florence Nightingale or the Meeting of the Muses," was performed in good style by Misses Mary A. Leech, Aggie Stewart, S. J. Stewart, Amanda Stewart, Louise Burns, Maria Burns, Allie McNall, Ida Burns, Anna Marshall, and Allie Hayes. The dresses and properties of "the immortal nine" added much to the beauty of the scene.

A dialogue written by Clara Augusta and entitled "A Nobleman in Disguise" was then given. The characters were represented by Amanda Stewart, Henry Burns, M. A. Leech, Will J. Stewart, Henry Burns, J. E. Stewart and Rankin Stewart. Miss Louisa Burns as "Aunt Polly" convulsed the audience with laughter. "A Scene in an Insurance Office" by Miss Allie G. Hayes, and Mr. D. W Wilson was very amusing and excited, much laughter and applause. The same can be said of the colloquy "Boarding School Accomplishments." In this piece Mr. J. E. Stewart represented an old countryman who had seen his two daughters to a fashionable boarding school. He comes to see them, bringing his "old blue cotton umbrill" along, of course, and not being pleased with their conjugation of the verb *to love* he packs them off home on the double quick.

Mrs. C. H. Burns, representing a drunkard's daughter, came into a bar room where some convivial spirits were making night hideous with bacchanalian song and story, and sang beautifully the touching song. "Come Home Father." Misses Allie G. Hayes, Jennie Oliver, Mrs. Lizzie Cox and George A. McBride sang "The Widow in the Cottage by the Sea." It was well received.

Joseph M. Dickson gave a declamation in his usual excellent way. The extemporaneous speaking class, owing to the lateness of the hour, was deferred until the next meeting.

The question, "Should women have the right of the American franchise?" was argued affirmatively by Mrs. C. H. Burns and Mr. D. W. Wilson, and negatively by Miss Mary A. Leech and Mr. Oliver T. Burns. It was quite spicy and interesting. Both the ladies seemed to possess a good deal of "snap."

The Society paper was then read by the Editors, Miss Allie G. Hayes and Mr. Wm. J. Stewart. It was uproariously funny and made the "Valley" people laugh all over. The Editors for the next meeting are Mrs. W. B. Marshall and Mr. J. Sylvester Burns.

Yours truly,
O. PHIDDLE, Styx.

HON. JARED M. BRUSH.

EDITORS GAZETTE: Once in a while one is stirred to call attention to the exemplary and consistent course of public officers, but not often—not nearly so often as could be desired. It is but proper and right when such an officer adorns the position he holds that it should be remarked; for it seems to be the natural if not necessary result of consistency in every department of life to excite little attention; while eccentricity, often resulting in serious mishaps, provokes comment and secures popularity.

These reflections led the writer to the conclusion that it would not be out of place to mention some of the merits of Mayor Brush. During his term of office not a complaint has been made against his administration. So consistently and efficiently has he discharged the difficult and responsible duties of his office that fault finding even in those in whom it is chronic, has been completely disarmed and every citizen afwards to him a meed of praise. Sensitive to the appeal of misery, he will not ignore the dictates of duty, and so admirably has he tempered justice with mercy, that he has escaped oppression on the one hand and laxity in the administration of justice on the other. He is distinguished too for firmness. Let him be once convinced that he *ought to do* any particular thing, and he *will do it*. Capable, upright, discriminating, the citizens of our goodly city have reason to congratulate themselves on their choice of Jared M. Brush for the position he so ably fills, and their wish should be that they may hereafter secure the services of an equally capable man.

NINETEENTH WARD.

STATE POLITICS.

THE Forest *Republican* favors General Allen for Auditor General.

THE McKean *Miner* says: We believe the nomination of General Allen would be a fortunate one for the party.

THE Bedford *Inquirer* moves and the Franklin *Repository* seconds the nomination of Hon. Frank Jordan as Republican candidate for Governor.

THE Warren *Mail* says: Our State Senate has passed a bill allowing women over 21 years of age to be voted for as School Directors. If not, why not?

THE Bloomsburg *Columbian* hopes that General Cass may be unanimously and spontaneously presented as the next Democratic candidate for Governor; and the Waynesburg *Messenger* endorses the sentiment.

THE Buck's county Treasury was so completely emptied by the Democratic Treasurer that when the recently elected Republican incumbent took charge of it he found nothing there and the jurymen had to go home without their fees.

THE Chester *Republican* says: Colonel David Stanton, of Beaver county, is the favorite candidate of the Republican party in Western Pennsylvania for Auditor General. He is spoken of as a gentleman who possesses the requisite qualifications for the position.

THE Washington *Reporter*, in speaking of the Auditor Generalship, says: The western portion of the State is this time entitled to the nomination, and in all the array of names none is so strong as that of Dr. Stanton. We hope to see him nominated with a glow of old-fashioned enthusiasm.

THE Greensburg *Herald* says: We see that Colonel Frank C. Hooton, of West Chester, is very favorably spoken of in a number of our exchanges, as a suitable candidate for nomination as Auditor General by the Republican State Convention. Mr. Hooton is a lawyer of fine abilities, a sound Republican of long standing—not a recent convert; and was one of the Presidential Electors in 1868. We presume one of the nominees of the approaching State Convention, should hail from the East, and we know of no one named for that office, better qualified or more worthy as an active and reliable Republican, than Col. Hooton.

FARM, GARDEN AND HOUSEHOLD.

PREPARE FOR SPRING.

At this, the winter season of the year, much can be done toward helping on the labor that will flood the farmer and gardener in spring. Many pleasant days will shine out through the face of old winter, and during such times fences can be repaired, buildings altered and fixed up; the manure and compost heap added to; trees, vines and plants trimmed, mulched and cleaned out generally; stakes for vines and raspberries got out and hauled and planted and put under shelter. In fact, the farmer and gardner need hardly be idle a single day; and the long nights are sufficient for reading and recreation. Every farmer and gardener should have a workshop with a stove in it, and a loft overhead where he can put timber to season, which is suitable to make swivel and double trees, hoe, rake, spade and fork handles, axle trees, bolsters, sliders, tongues, etc., etc. He should have a tool chest with the ordinary tools for such work, such as a drawing knife, hatchet, chisels, augurs, brace and bits, saws, mallet, etc., and have a supply of bolts and taps, nails, and other things which may be needed from time to time on a farm. Such a workshop would afford a comfortable and inviting retreat for the farmer and gardener and their boys; and no matter how cold or wet, no matter how fiercely the storm rages without, all would be snug and safe, and much could be done towards helping on the press of work when active operations come on in the busy days of spring.

Besides this, it would afford pleasant as well as useful recreation to the male members of the family, and thus many a dollar would be saved, to say nothing of the loss of time consequent upon running to the village or cross roads shop, to have trifling little jobs of work done. The custom indulged in by many farmers and their sons, of visiting the mills, shops, stores, and other "loafing" places in their neighborhood, during the winter season, and spending many valuable hours, both day and night, is, to say the least, quite improper. Habits of idleness are engendered, and, too frequently, habits of dissipation, all of which could be prevented if such plans for home occupation were prepared as herein suggested. *Make home attractive*, is a maxim which cannot be too often urged upon all. Let it become dearer to every member of the family, male and female, than any other place on earth. In addition to a workshop, prepare a comfortable room for the boys, where they can be by themselves; provide good books and papers, treating upon works on farming and stock, poultry, sheep, hogs, horses, cattle, etc., and some good paper on the stirring events of the day. These, if wisely chosen, will furnish food for the mind; and day by day, year by year, as the boys grow to manhood, such a foundation will be laid as to tell, for good only, upon their entire after life.—*Country Gentleman.*

DISEASES OF POULTRY.

The present year has been a noted one for diseases in our poultry yards; not only in the city where disease is more easily contracted, but also in the country.

I intend to treat in this article, on several of the most common diseases, their symptoms, causes and the proper modes of treatment, and first, let me say that "an ounce of prevention is better than a pound of cure," and when the former cannot be secured, the latter must be attended to immediately, or all attempts will prove fruitless.

The most dangerous and yet the most common of diseases among poultry, is called Roup. This name is supposed to have originated from "croup," to which children are subject. The term "roup" is indefinite, as it is applied to very dissimilar disorders among poultry, such as the pipe, gapes, and obstruction of the rump gland.

The first noticeable symptom is a peculiar breathing. The fowl at the time appears in perfect health, but it will be seen that the loose skin which hangs under the bill, to which the wattles are attached, is inflated and emptied at every breath. Such a fowl should be removed at once from the rest. The next symptom, and the one that is usually first noticed, is a difficulty in breathing, accompanied by a rattling in the throat, and a fetid discharge from the nostrils, somewhat similar to glanders in horses, and of a very offensive odor. This limpid matter soon leaves its transparent form, and becomes more or less opaque; froth exudes from the inner corners of the eyes, and the lids swell so much sometimes as to shut the eyeball entirely in, or push it out. In this stage the disease is almost past cure.

The appetite is gone, except for drink, and unless the fowl be fed by hand, it will starve to death. The disease is usually accompanied by the pipes.

The author of "Domestic Poultry," says, "there is one thing worthy of remark; none of our fowls imported from warmer climates, are subject to roup, as Spanish Cochins, Brahmas and Malays." This I know from experience to be incorrect, as far as Brahmas are concerned.

Causes.—Fowls of weakly habits will often contract the disease from damp weather. Being a long time without food or water, and then allowed an unlimited quantity, which they gorge themselves and so bring on disease. But the chief cause is attributed to fowls being shut up in close, tainted coops. Two cocks may get to fighting and one of them is shut up in a close coop, and perhaps fed regularly, until through pity, he is set at liberty, mostly with the seeds of the disease in him.—*Wilmington Commercial.*

ROLLING GRAIN IN THE SPRING.

If farmers would look at the the theory of rolling the wheat and rye fields in the Spring, it would be resorted to much more frequently than it is. Occasionally the Winter and Spring have been so favorable to these crops as not to render it necessary. But in three seasons out of four it is necessary, and doubtless adds considerably to their productiveness. The thawings and freezings of the ground, throwing or spewing out the roots and exposing them to the drying winds of February and March, very seriously affect the grain. Passing a roller over as soon as the soil is fit to enter upon, presses back the roots into their beds, and gives them a fair grip again upon the support on which the crop must depend. This must be apparent to every one who will look at its operation. We have no doubt that rolling clover fields that have been badly thrown up by the frost, would also have a beneficial effect.—*Germantown Telegraph.*

RAT-PROOF CORN-CRIB.

A correspondent, writing from Great Barrington, Mass., gave his plan of making a rat and mice-proof corn-house. He wrote: "Mine was already built. I could not easily isolate it from adjoining buildings or connecting fences, and if I could I was not sure of getting it high enough to outreach an occasional drifting snow. I was not troubled with rats, but my building was so infested with mice that corn or other grain placed in it was unfit to be used as food. My remedy was to line the entire lattice part with wire-cloth, costing about ten or eleven cents a square foot—that was done two years ago. The protection is perfect."

The English Commissioners.

[From the Phila. Ledger.]

A brief sketch of the commissioners appointed by Great Britain in accordance with the recent convention to settle the Alabama claims may be interesting. Earl De Grey and Ripon is Lord President of the Council in the present Gladstone administration. His family name is George Frederick Samuel Robinson, and he is the son of the first Earl of Ripon, a well-known English minister, who held many high offices of State between 1810 and 1846, and who was familiarly known as "Prosperity Robinson." George Frederick Robinson was born 1827, and served in the House of Commons from 1853 until 1859, when, on the death of his father, he entered the House of Lords as Earl of Ripon. In the same year, on the death of his uncle, he succeeded to the position of Earl De Grey, and hence bears the double title. He was appointed Under Secretary of War in June, 1859, but was removed to the India Board in February 1861, and then returned to the War Office in July, 1861. He was Secretary of War from April, 1863, to February, 1866, when he resumed his position at the India Board. He resigned from office in June, 1866, but returned to power with Mr. Gladstone, and, in December, 1868, was appointed President of the Council of State.

Sir Edward Thornton has for many years been employed in the British diplomatic service, and has represented Great Britain in Brazil, Mexico, Italy, and has been Minister to the United States since 1868.

Montague Bernard is Professor of International law at the University of Oxford, England, having been elected to that position in 1859.

Sir John Alexander McDonald is a prominent Canadian statesman. He was born in 1815, was admitted to the bar in 1835, and was elected as a Conservative to the Colonial Parliament from Kingston in 1844, and has represented that city ever since. He was appointed a member of Executive Council and Receiver General in May, 1847, and Commissioner of Crown Lands in December of that year. In March, 1850, the Cabinet to which he was attached resigned, but in 1854 McDonald joined a coalition Cabinet as Attorney General, and held this post until 1862, being part of the time Prime Minister. He was again appointed Attorney General in 1864, and in 1866 was appointed one of the delegates sent to England to arrange the terms of confederation with the Imperial Government.

Sir John Rose is also an eminent Canadian. He was born in Scotland in 1821, but at an early age removed to Canada. He next studied law, and having been admitted to the bar, distinguished himself as an advocate and as a statesman. He was a member of the Colonial Parliament for many years, and was also a member of several cabinets. He was prominent as an advocate of Confederation, and his success in bringing the Colonies into the Dominion of Canada has given him an important position in the public affairs of that country.

Charles Stuart Abbott, Lord Tenterden, Secretary of the Commissioners, is the grandson of the celebrated Baron Tenterden, Chief Justice of the King's Bench from 1818 to 1822, and author of the well-known law book cited as "Abbott on Shipping." The present Lord Tenterden was born in 1834, and in 1854 was appointed a clerk in the foreign office. He has only recently succeeded to the title on the death of his uncle.

THE HAZARDS OF WINTER.
The feeble and delicate dread the winter, and with good reason. The weather at this season has a depressing effect upon the vital organs and the animal spirits, and they have no vitality or mental animation to spare. The aged and infirm, in whom the flame of life is waxing dim, are always unpleasantly affected by the temperature of winter, and should fortify their systems against it. The extra vigor and resistant power which the enfeebled system requires to enable it to meet with safety the assaults of cold and damp, may soon be acquired by the regular use of Hostetter's Stomach Bitters. The tonic effect of this wonderful medicine is soon apparent, in an increased appetite, a more active digestion, and a brighter, happier frame of mind. Food is the fuel of the body, and if it is not properly digested the fires of life burn low. When this is the case, the disability can always be remedied within a short space of time, by taking a full dose of the Bitters twice a day. The stomach will soon begin to perform its alloted task regularly and steadily; the food, being thoroughly assimilated, will yield the amount of vital heat and nourishment which the body requires, under the external pressure of cold, and the winter ailments which are apt to assail the weak and untoned physique will be avoided.

Wellman Patent Reflector
STOVE AND GRATE.
Which Stand Without a Rival.
The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.
1st. As a radiator of heat it has double the intensity of any other grate.
2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.
3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.
4th. As an economiser of fuel—there being an actual saving of at least 25 per cent.
5th. It is highly ornamental.
6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.
7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.
Samples may be seen and references had at the store of W. BARNES, corner of 2d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.
Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

TREASURY DEPARTMENT, WASHINGTON, February 4th, 1871.
PUBLIC NOTICE IS HEREBY given, that books will be opened on the sixth day of March next, in this country and in Europe, for subscriptions to the National Loan, under the Act approved July 14, 1870, entitled "An Act to authorize the Refunding of the National Debt," and the Act in amendment thereof, approved January 20, 1871.
The places at which subscriptions may be made, and the names of the authorized Agents of the Government, will be announced hereafter. The proposed loan comprises three classes of Bonds, namely:
First—Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of five per cent. per annum.
Second—Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.
Third—Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.
Subscribers to the Loan will have preference in the following order, namely:
First—Subscribers for equal amounts of each class of bonds.
Second—Subscribers for equal amounts of bonds bearing interest at the rate of four and a half per cent. and of bonds bearing interest at the rate of five per cent.
Third—Subscribers for five per cent. bonds.
When a subscription is made the subscriber will be required to deposit two per cent. of the amount thereof, to be accounted for by the Government when the bonds are delivered; and payment may be made either in coin or in bonds of the United States known as FIVE-TWENTY BONDS, at their par value. The coin received in payment will be applied to the redemption of five-twenty bonds.
The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States, at the office of the Treasurer, any Assistant Treasurer, or Designated Depositary of the Government.
The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.
After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.
GEO. S. BOUTWELL,
SECRETARY OF THE TREASURY.

COMPLETION
OF THE
Burlington, Cedar Rapids & Minnesota Railway.
THE FIRST MORTGAGE
7 Per Cent. Gold Bonds,
Coupon or Registered
(FREE OF U. S. TAX.)
Principal and Interest Payable in Gold, on a finished road. For sale at
90 and Accrued Interest in Currency.
The last rail of this important road was laid on the 20th of January, thus completing the enterprise and establishing a connection between St. Paul and St. Louis 90 miles shorter than any existing route and 65 miles shorter than any contemplated routes between the same points.
By this line also the distance from Chicago to the great grain fields of Minnesota is shortened 45 miles and transportation proportionately quickened and cheapened. The First Mortgage Bonds assume therefore at once on the completion of the line a position equal in intrinsic value to those of the Fort Wayne, Pennsylvania Central, Illinois Central or any other First Mortgage Bonds of completed trunk lines—not one of which sell below par.
The B., C. R. & M. Bonds are a First Mortgage, amounting only to $20,000 per mile on a line of road which has cost $40,000 per mile. The balance having been supplied by liberal subscriptions to the stock at par, made by wealthy farmers and parties interested along the line, and by similar subscriptions on the part of Towns and Counties through which the Road passes, which have adopted this system of giving their aid rather than issuing Town and County Bonds.
The earnings of the Road in its incomplete state, and while deprived entirely of through connection, have been for the past three months in excess of 12 per cent. on the amount of the Mortgage Bonds, after deducting operating expenses. No Road in the United States can show a better record during its inception. When is added to this lucrative way traffic the profits which will arise from the transportation of the vast wheat crop of Northern Iowa and Southern Minnesota, *all of which must seek a market over this line*, the result cannot but be a showing which will give large Dividends on the Stock of the Company, after paying the interest to the Bondholders as heretofore. The privilege which attaches to the Bonds of conversion into Stock at par will shortly assume practical value, as by this privilege the Bondholders will, by the conversion, be entitled to share in any excess of earnings which may accrue to the Road.
The Company has made extremely favorable arrangements for freight and passenger traffic with the Chicago, Burlington and Quincy Railroad Company. These arrangements will add largely to the profits of the Burlington, Cedar Rapids and Minnesota road, as well as increasing its traffic receipts. The C. B. & Q. R. R. has further agreed to set aside 50 per cent. of the gross earnings realized from the business with the B. C. R. & M. Co. for investment in the Bonds of the latter company.
This arrangement secures a practical consolidation of the companies, and makes the Chicago, Burlington and Quincy Company permanently interested in the Burlington, Cedar Rapids and Minnesota road by its running arrangements with and investments in the first mortgage bonds of the latter.
A small amount, $400,000 in all, of the issue, yet unsold, are still offered at the subscription price of 90 and accrued interest in currency. Although the Company feel warranted in the present condition of their affairs in advancing the price of their bonds, yet they have concluded to continue for the present the subscription at the same price as heretofore, in order to effect rapid sales and thus free themselves immediately from all floating indebtedness.
All marketable securities taken in payment free of Commission and Express charges.

DR. WHITTIER
CONTINUES TO TREAT ALL PRIVATE DISEASES, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and impotency, resulting from self-abuse or other causes and which produce some of the following effects as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 296 PENN STREET.

MONEY AND COMMERCE.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, February 16, 1871.

Money continues active. The demand is fair and rates previously named firm.

There is rather more activity in local stocks, without causing any material change in quotations.

Private advices from Philadelphia announce that the Directors of the Dalzell Petroleum Co., have declared a dividend of ten (10) cents per share payable on the 1st of March next. Pittsburgh stockholders desiring to do so can collect their dividends through Messrs. Robinson Bro's, No. 78 Fourth avenue. The stock holders meeting of the above named Company, held on Tuesday, 14th instant, adjourned without further action to meet in May next.

The New York market is dull but steady. Prices are off about ¼ per cent throughout the list.

Robinson Bros., No. 78 Fourth avenue, furnish the following comparative quotations of bonds and stocks, from their latest advices by wire:

NEW YORK, February 16.

The gold market opened firm at 111⅛@111¼, and declined to 111⅛ on small amount bids at the Treasury. The rates paid for carrying were 3 to 5 per cent. Clearances, $43,000,000. Governments were dull; the new '65's and '67's sold down to $109⅞, and are offered at that, the whole government list closing weak. The government stock market is extremely dull and in tone barely steady, with chief interest in the Vanderbilt stock; Northwestern preferred, Ohio and Mississippi and Lake Shore Pacific Mail were active, selling up to 43⅞. Union Pacific bonds were very steady. Money easy at 4@5 per cent. The Southern State securities on last call were firm, especially in new South Carolinas, Tennessees and Missouris.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, February 16, 1871.

The oil market was exceedingly dull and weak to-day, both crude and refined, and notwithstanding there were offers to sell at a decline of a full ¼ of a cent, as compared with yesterday, there were no buyers. Our advices from Cleveland present the situation as being little, if any, better there than it is here. Crude is relatively higher in that market than refined, and, consequently, a number of the largest refineries there have suspended operations; furthermore, it is alleged that some of the Clevelanders have been selling Crude on the creek recently, which goes to substantiate what we have stated above, that there, as here, there is no margin for the manufacturers at present prices. The producers may be able to carry the entire product for a while longer, but to say the least, it is extremely doubtful; they will certainly have to sell soon, and it is also very certain that consumers cannot pay present prices unless there should be a very decided advance in refined of which there is not much prospect at this writing.

CRUDE.

Dull, weak and lower. Seller first six months, 10⅞; offers to sell next sixty days at 11⅛, spot offered at 11⅛, with no buyers.

REFINED.

Continues dull and weak with a drooping tendency. February, 24⅞; March, 24⅞; April, 25; May, 25⅛; June, 25⅛@25⅜. No sales. Exporters are reported virtually out of the market, and there is an almost entire absence of anything like a speculative inquiry.

OIL BARRELS.

City make, on spot, quiet at $1.70 and market reported firmer.

TITUSVILLE, February 16—1 P. M.—Market very quiet at $4.25@4.30; gravity $4.65.

PLEASANTVILLE, February 16.—Market dull at $4.90@5.95.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, February 16, 1871.

APPLES—Under the influence of increased receipts, and if anything a falling off in the demand, the market is a little weak, and less active, though as yet there is no quotable change in prices. We continue to quote at $4.00@5.00 per bbl, though it is very difficult to get over $4.75 for 20 or 25 bbl lots, no matter how good they may be. It is well known that when prices get up to our quotations that the consumption is always comparatively light.

APPLE BUTTER—Is quoted all the way from 60@75 per gallon, as to quality.

ASHES—Common Soda Ash, 4 cts; Refined do 4⅛; Pearl Ash, 9⅛; Potash, 7⅛.

BUTTER—The market for common to medium is very dull, and we are reported sales at 15@20. Good roll may be quoted at 25@28, and strictly prime at 28@30. There is rather more inquiry for the better grades.

BEANS—Demand rather better, but there is no change in prices, $1,50@2,00 per bushel.

BROOM CORN—4@6 cts and dull.

BEESWAX—Small sales at 30@31c.

BUCKWHEAT FLOUR—2¾@3 cts.

CHEESE—New York Goshen quoted 16⅛@17; Ohio Goshen at 16; Factory, 14@14⅜; Western Reserve, 13@14.

CORNMEAL—Is quoted at 85 per bushel, for small lots in store.

CARBON OIL—The demand is fair and prices are maintained, standard brands 22⅛@23, in a jobbing way—24 in small lots.

CEMENT—Sales Louisville Hydraulic at $2.25, and Calcined Plaster at $4⅛ per bbl.

COAL—Sales of Anthracite at $9@9⅛ per ton by the car load, delivered.

CRANBERRIES—In fair demand but there is a continued wide range in prices, $12@18 per bbl.

DRIED FRUIT—Peaches may be quoted at 9@9½ for quarters; 10@10½ for mixed, and 11½@12½ for halves. Apples, 6@7 for fair to good quarters, and 8½@9 for sliced. Blackberries, 11@12.

EGGS—Continue to arrive freely, and fresh cannot fairly be quoted above 25, though some holders are holding at 25. Pickled eggs continue exceedingly dull; and dealers are all anxious to work them off at some price or other.

FEATHERS—We are reported sales of No 1 live geese feathers, to the trade, at 75; may be quoted at 80 in small lots.

FLOUR—Is dull and weak, though there is as yet no quotable change in prices. Spring wheat $6.75@7.00; Minnesota baker's flour, $7.25; red winter wheat $7.00@7.25; white do. $7.25@7.50. Rye flour, $6 and firm, though the demand is light.

GRAIN—The receipts continue liberal and with a limited demand, all the mills being well stocked, the market is dull and prices weak, though nominally unchanged, $1.30@1.35 for red, and $1.40@1.45 for white. Most of the wheat arriving was contracted for some days ago, during the excitement which then prevailed, and when prices were 5 to 8 cents per bushel higher than now, and consequently have no margin in selling at quotations, and some of them are taking it in store to hold until there is an improvement. The mills, however, are full, and, so far as we can learn, are not anxious to buy even at present prices. Oats are very scarce and higher; we now quote at 48@49 buying, and 50@52 selling—small lots in store, 53@55. We heard of a car having changed hands at 52. Ear Corn is reported steady while shelled is dull, though stocks are by no means large; prices are unchanged, 65@67 for mixed to prime yellow—usual advance in a jobbing way. There is considerable inquiry for Rye and the offerings continue light; may be quoted firm at 95@$1.00. Barley is steady but unchanged—80@85 for spring, and 90@95 for fall; sale 2 cars medium fall at 90.

GROCERIES—Market continues fairly active, and prices are firm at the rates below quoted:

COFFEE—Fancy Rio, 20; Prime, 19; Good, 18; Fair, 17; Roasting, 16@16⅛.

SYRUPS AND DRIPS—White Honey, 75; Havemyer & Elders, 78; Silver Drips, 65; Loverings, 68; other grades, 45@55.

SUGARS—Choice New Orleans, 11⅛; prime, 11⅛ good, 10⅛; fully fair, 10; Porto Rico Sugars 10⅛@11⅛; Cuba, 10@11; Demarara, 11⅛@12⅛.

REFINED SUGARS—Hard Sugars, 14⅞; A Coffee, 13⅛; "B," 13⅛; Extra C, 13⅛; C yellow, 12⅛.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair, $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 80cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c, Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 9c; prime, 8⅛c; good, 8c.

SPICES—Grain Pepper, 21c. Pimento, 17c. Cloves, 20c. Cassia, 40c.

FOREIGN FRUITS—Currants, 11⅛@12 cents. Prunes, 11½c. Valencia Raisins, 16c. Layer Raisins, $3.25 per box.

HAY—Continues very dull. Baled may be quoted at $14@16 on wharf, and demand very light.

HONEY—Continues dull and cannot be quoted above 25@30 cts.

HOMINY—Dull but unchanged; $5 00@5 50 per bbl.

HUSKS—Sales at 3@3⅛ cts.

HIDES—Green salted (all weights) 10⅛@11⅛; green butchers (cow and steer) 7@8; green salted kip 16@16; do calf, 16@18. Dry 18.

LIME—Sales of Cleveland at $1.50 per bbl and eastern at $1.75.

MILL FEED—Notwithstanding the receipts have fallen off considerably, there is no improvement in the demand and prices are unchanged.

ONIONS—Are in better supply, but with continued steady demand, prices are maintained, $4@4.25 per bbl.

OILS—No 1 lard $1 08@1.10; No 2, 70; Pure; Labrador cod oil 70@75; straits, 65; bank, 60c.

PROVISIONS—Market firm and fairly active, though there is not much change to make in quotations. Plain Shoulders, 10⅛; Sugar Cured, 11⅛; Ribbed Sides, 12⅛; Clear do, 13⅛@13⅛ Sugar Cured Hams, 16 cts. Breakfast Bacon, 16@16⅛. Dried Beef, 19. Lard, prime kettle, in tcs, 13⅛, in kegs and buckets, 14. Mess Pork, $23.25@23.50.

POTATOES—While the arrivals continue light, the supply nevertheless is fully up to the demand, which is almost wholly for small lots, and prices are barely maintained, $1,20@1.25 per bushel, the outside figure for prime Lake Shore Peach Blows.

PEANUTS—Sales at 6⅛@8 cts.

POULTRY—Market is almost bare, though the demand is by no means active; dressed Chickens may be quoted at 13@15, and Turkeys at 16@18.

RAGS—Quoted at 4@4⅛.

SALT—Is quoted at $1.60@1.65 by the car load, with the usual advance for small lots in store.

SEEDS—Clover seed is weaker and holders generally anxious to realize; we are reported to the trade at $6.80@6.90, and in small lots at $7.00. The stock in this market is not large. Timothy seed is very scarce and firm at $6.25@6.50. Flax seed is more inquired for and may be quoted firm at $2.15@2.18.

SUMAC—Sales Tennessee Sumac at 4⅛ cts.

TALLOW—Rendered, at 8⅛@8⅜c.

TURNIPS—Demand is improving and we now quote at 60@65 per bushel.

WILLOWS—Sales Kentucky willows at 10.

RIVER NEWS.

The river is again receding slowly at this point with scant five feet in the channel. Weather clear and pleasant overhead; was growing colder last evening with a south west wind.

Business continues sluggish at the landing which may be attributed in part to the bad condition of wharf and streets, rendering teaming very difficult.

The Juniata did not arrive in time to leave yesterday, her regular day, but will be here this morning and will probably return this evening. She was a day behind in leaving here last week, and the low water and ice combined, prevented her from making up her lost time. We hope that Capt. Brennan will get, as he deserves, a big trip.

The Carrie Brooks will not be here until next week, the ice in the Muskingum river having rendered it necessary for her to lie over a week.

The Belle Vernon, Capt. J. J. Darragh, is filling up steadily for Nashville.

The Rover has her cargo completed, and will cut loose for St. Louis as soon as there is a little more water, and the same is equally applicable to the Silver Lake.

The Wauanita, Capt. Rees Rees, will be the first through boat out for New Orleans.

Capt. John W. Anawalt is in town. He reports that the Wild Duck and barges will be here on Saturday and will at once commence loading for St. Louis.

The Granite State, always on time, arrived last evening with an excellent trip, and will return to Portsmouth this afternoon, leaving promptly at 4 o'clock. Com. Kerr, a veteran in the trade, and who is known at almost every farm-house along the river between here and Portsmouth, is in command, and Mr. T. T. Johnston still retains charge of the office. W. J. Abrahams and Joseph Whitten are her pilots and John Kennedy chief engineer.

—The St. Louis *Republican* says: Since the 1st of January, 10,000 tons of iron ore has been shipped by the Iron Mountain Company, to Grand Tower and various points on the Ohio river. The shipments in January amounted to 3,050 tons, all of which, save 300 tons, went to the Ohio river. Since the beginning of February the shipments made have been up to date to Grand Tower, 2,150 tons; to the Ohio river, 4,700 tons. The Antelope's barges yesterday took out to Albany 800 tons; to Louisville 300 tons. The Hawkeye No. 2 is having a tow made up for her as follows: 500 tons to Wheeling, and 500 tons to Ashland, Ky. The Wm. H. Brown has gone to Cairo and Belmont, and will bring back three empty barges to load with ore. There is now at the ore bank below the city 90,000 tons of Iron Mountain ore waiting shipment to Grand Tower and various points on the Ohio river. The iron trade has got to be a big thing.

—Boats are withdrawing from the New Orleans and Red river trade. The New Orleans Republican, of Sunday, says: The steamer Belle of Alton, we are sorry to inform our Red river shippers, has withdrawn from that trade, and on yesterday evening turned her trip over to the steamer B. L. Hodge. The Belle of Alton will enter the Ouachita river to Trenton as a weekly packet.

—Both engineers of the ill-fated Judge Wheeler assert that there was only 150 pounds of steam when she blew up, and that the boilers were well supplied with water. Only the day before the boilers had been cleaned. Captain Nowland's leg is badly fractured, and it is feared his injuries may prove fatal. The other wounded will recover.

—Clerk Braithwaite, of the H. C. Yeager, writes from Vicksburg that his boat has 1,660 tuns freight, and 225 tuns coal on board, making a total of 1,835 tuns, and that she is drawing eight feet six inches forward, seven feet midships and six feet at the stern. It would require 250 to 300 tuns more to load her to her full capacity. She handles beautifully and runs well.

—Yesterday morning Deputy United States Marshal Weber attached the ferryboat Fannie Webster, plying between Ludlow and the foot of Fifth street, on the charge of not complying with the inspection laws. The owners gave the proper bond. Life boats are now on the Fannie Webster.—*Cin. Gazette.*

—The St. Louis *Democrat* of Tuesday says: The Carrie V. Kountz is expected at this port this evening from Louisville. What is she going to do? is asked. We shall soon see The Henry Yeager comes here from New Orleans. These boats belong to the Kountz's Continental line.

—On the 8th, at Vicksburg, the steamer Lizzie, which was built at Cin., was sold to Captains Ledbetter, Deat and Cooper. Captain Ledbetter will command her, and put her in the Yazoo and Tallahatchie river trade, in the place of the Big Sunflower.

—The latest intelligence from the Sam. J. Hale is that she will reship her freight and come to Cincinnati for repairs. Capt. James Batchelor is in Louisville to look after the interests of the underwriters on hulls.

—The Charmer, Evansville to Cincinnati has the following freight for Pittsburgh: 32 bags pea nuts, 1 Dickey & Co; 11 plowshares, Pitts. Plow Co; 19 bbls flour spar, L & W.

—The Maysville Bulletin says that Captain Power is to call his new Cincinnati & Chilo packet "Katie Darling."

—The convicts of the Penitentiary at Nashville unload steamers at the rate of 15 cents per hour.

WINE OF LIFE.—The great Blood Purifier and Delicious Drink, WARNER'S VINUM VITÆ, OR WINE OF LIFE, is free from any poisonous drugs or impurities, being prepared for those who require a stimulant. It is a splendid appetizer and tonic, and the finest thing in the world for purifying the blood. It is the most pleasant and delicious article ever offered to the public, far superior to brandy, whisky, wine bitters, or any other article. It is more healthy and cheaper. Both male and female, young or old, can take the Wine of Life. It is, in fact, a life preserver. Those who wish to enjoy good health and a free flow of lively spirits, will do well to take the Wine of Life. It is different from anything ever before in use. It is sold by druggists; also at all respectable saloon. Price $1.00, in quart bottles.

NEW 7-30 GOLD LOAN.
Safe! Profitable! Permanent!
JAY COOKE & CO. offer for sale at Par and Accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company.
These bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-two Thousand Acres of Land to each mile of Road.
The bonds are free from United States Tax; the Principal and interest are payable in Gold—the Principal at the end of Twenty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.
They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.
The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company.
These Northern Pacific 7-30 Bonds will at all times before maturity, be receivable at TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.
In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can by converting them into Northern Pacifics, increase their yearly income *one-third* and still have a perfectly reliable investment.
HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.
Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the Investor.
For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this Loan.
For sale by the following Agents:
"After thorough investigation we have accepted an Agency for the sale of these popularly approved Bonds, and confidently recommend them to our customers and investors generally."

THE DAILY GAZETTE.

HOME NEWS.

Mayor Callow yesterday sent Samuel Hill to the Work House thirty days for larceny.

The Ormsby Passenger Railway, it is expected, will be completed by the 1st of August.

John Irish was fined ten dollars and costs for drunkenness yesterday morning by Justice Ammon.

King Pin in the Post.—The Patent Collar and Cuff Button at D. W. Evans', 59 Fifth avenue, Masonic Hall building.

John Weiss was charged before Justice Krehan yesterday, by his mother, with disorderly conduct. Warrant issued.

Mary Rodenbach, for disorderly conduct, was sent to jail for twenty days, yesterday, by Squire Krehan of Birmingham.

Arm Broken.—Mrs. McGowan of East Birmingham, slipped on the ice on Carson street yesterday and fell and broke her arm.

Go and see Professor Bain and hear his truly eloquent lecture. The music is the best in the city, and the paintings, oh! they can't be described.

Sherman Avenue residence at auction, No. 21 is to be sold at A. Leggate's real estate and stock exchange on Monday evening next. Go and see it. See advertisement.

A little girl residing on Spring alley Twelfth ward was severely burned Wednesday afternoon by her clothing catching fire from the grate. Through the efforts of her mother she was saved from a horrible death.

Forty exhibitions have been given of the "Pilgrim" in the Academy of Music. From the appearance of the crowds there nightly the interest is still on the increase.

Every Lady should have one. The gentleman's toilet is incomplete without it. Evans' Department Store is the place to get it. The cost is one dollar, 59 Fifth avenue, Masonic Hall building.

Our Correspondent "M." we are informed, was incorrect in stating that the firm of Smith & Porter had purchased the New Haven Woolen mill near Connellsville. It has been purchased but not by the firm.

Bertha A. Black made an information before Burgess Salisbury of Birmingham, yesterday charging J. Rodenbach with assault and battery. She alleges that he slammed a door in her face and pushed her violently. Held for a hearing.

At the Allegheny Fair for the benefit of the widows and orphans of soldiers and sailors, last night, the bracelet was awarded to Miss Hulmes, she having received 600 votes to 14 cast for her opponent. The doll was awarded to Miss Maggie Frazier.

Cross Suits were instituted before Justice Krehan yesterday, by Jacob Brown against Andrew Meyers for disorderly conduct, and Andrew against Jacob, for assault and battery. Meyers was fined one dollar and costs, and Andrew was held for a hearing.

It is not the Latest Sensation, but an acknowledged fact Evans is selling goods cheaper than any house in the city. The Department Store, 59 Fifth avenue, is the place for bargains in Jewelry, Fancy Goods, Cutlery and Silver Plated Ware, Masonic Hall building.

We were called on yesterday by Mrs. Young, wife of the gentleman that was reported to have starved to death, and wished us to correct the item. She says that for several days they were destitute, and in want of bread, but the two weeks prior to Mr. Y's death they had enough to eat.

Leg Broken.—Wednesday morning at an early hour, Mr. Nelson, a shoemaker, while walking down Sandusky street, Allegheny, near the railroad crossing, fell and broke his leg. He was carried to his home, No. 54 Correy street, by a couple of policemen, and had his injuries attended to by Dr. B. B. Smith.

Fifth Avenue Assessment.—We understand that the City Solicitor is entering up liens against the property of persons on Fifth avenue who have failed to pay the assessment for the opening of the same. Would it not be well for those who know themselves to be indebted to pay up at once, and thus save trouble and costs?

The French Relief Fund.—The programme of the Dramatic Representation, to begin the 21st inst., at Library Hall, has been fixed as follows: "The Dead Heart," a French national drama, and the burlesque "Box and Cox." An excellent selection, in which our *amateur dramatists* cannot fail to please their benevolent hearers.

Monongahela City Pa., Feb. 15, 1871.

Editors Gazette:—Mr. Wm. H. Jones, (colored) was to day elected to the Borough Council of Monongahela City by a majority of four (4.) Mr Jones is very prominent among his people and is now filling the office of *First Vice President* of Equal Rights League. Surely the work goes on.

Dishonest Companion.—O. F. H. Bowman, deck hand on the steamer Emperor, just in from New Orleans, complained to Mayor Brush yesterday that he had been robbed of his pocket book by Albert Haily, another deck hand, who had been his bed-fellow the evening previous. The pocket book contained about twelve dollars and a tape line. The Mayor issued a warrant, but Haily has not yet been captured.

Southside Relief Fund—Barnett's Museum.—Mr. Barnett generously appropriates the entire receipts of the museum this afternoon and evening to the relief of the sufferers by the recent Southside fire. In addition to the endless variety of other attractions at the museum the visitors will meet the Major's distinguished guest the "Sea Dog," lately arrived and now attracting crowds to the museum to make his acquaintance.

Mrs. Elizabeth Cady Stanton.—We announce with great pleasure that Mrs. E. Cady Stanton will favor us with a lecture on an interesting subject on Monday evening, February 27th, at Mercantile Library Hall. We need not enlarge on the matter, as it is only necessary for our citizens to know the fact that Mrs. Stanton will lecture to fill the house to overflowing, and this we know, that those who hear her will be delighted. The subject of the lecture will be duly announced.

Larceny.—Samuel Mooney, a young man about eighteen years of age, recently from Baltimore, was charged before Mayor Brush yesterday, by John McGowan, a farmer on the Brownsville road, with the larceny of twenty dollars. The prosecutor alleges that Mooney, who has been in his employ as a farm hand, during the absence of the family, abstracted the above amount from a bureau drawer. A warrant was issued.

Allegheny Sewerage Assessments.

The question has been settled. The owners of property in Allegheny, who paid the first sewerage tax, and subsequently under the act of March, 1869, were to be refunded a portion of the money, are to get the amount—not those to whom the property has since been sold. The Finance Committee, acting under the advice of the City Solicitor, decided upon this method and have instructed the Controller to make out the lists accordingly. Notice will be given of the time of payment.

Loss Vocale.

The masked ball of the German Library Society, given at Lafayette Hall last night, was the event of the season. The costumes were most elegant and *recherche*, and the characters assumed well sustained. For grace and beauty we do not think that the ladies who participated were ever excelled by any gathering of whatever nationality in the City of Pittsburgh. Among the prominent gentlemen present, we noticed Messrs. Noeb, Holstein, Roth, Meyran, Morgenstern and a number of others whose faces were familiar, but whose names we were unable to learn. Altogether, the ball was a decided success, and we hope to see it often repeated.

A Muddle—Suits and Cross Suits.

Yesterday afternoon Heman Tanner, a colored man, who says he has been a citizen of Pittsburgh for the past sixty years, appeared before Alderman Shore and made information charging Daniel Kalleher, a lad aged about sixteen years, with assault and battery. He alleges that Daniel, who with a lot of other boys, is in the habit of loafing on Webster avenue attacked his grandson on Sunday last, and that when he (Tanner) interfered to preserve the peace, this boy Kalleher set upon and beat him, blacking both his eyes and in other ways disfiguring his countenance. Daniel was arrested and held in $500 for Court.

John Griffith, uncle of the above defendant then instituted proceedings against Heman Tanner, before the same Alderman, charging that he without any provocation whatever, as he had been informed, set upon and beat this boy Kalleher in a shameful manner. Tanner was also held in $300 bail for court.

To conclude the difficulty, John Neidam, also colored, made an information to the effect that Kalleher had assaulted and beaten his nephew, Isaac Washington, a boy of about twelve years of age, about the same time, and alleging that the "crowd" of which the accused is a member are in the habit of assembling on Webster avenue, in the vicinity of the Catholic Church, and assaulting every one, especially colored people, that may pass. Held in $300 for court.

Suffering in France.

The desolate and exhausted condition of portions of our own country and the almost famishing condition of the people in the districts traversed by the Union and Confederate armies, at the close of our late war, must suggest to every reflecting mind the great suffering and destitution now prevailed over a large portion of France, and the duty of every benevolent heart to adopt some measure of relief. Several American cities have adopted such measures with more or less success. Will Pittsburghers forget that at one time her great necessities, resulting from a vast conflagration, were considered, and that from all sides of a sympathising country relief poured in and was gladly accepted by hundreds of families impoverished by the fire? Will we not as American citizens treat the suffering French as neighbors and as friends whom it is our duty to visit and relieve, in obedience to the Divine precepts? Will not the common impulses of humanity prompt us to act, and to act promptly and generously in so noble a cause? How can this be done? Various ways have been mentioned. Among others that the Mayor should call a meeting of citizens to organize committees to solicit relief, or that a few citizens should volunteer a few days efforts for the same object, or that subscription books should be left at the counters of our several public and private banking and insurance companies and agencies. Some officer in each of the sympathisers with the object to have special charge of the same. We persuade ourselves that hundreds of our wealthy citizens would avail themselves of such opportunities to attest their good feeling in this matter, and that thousands in more humble circumstances would gladly give their mite to relieve a people but suffering and prostrate people. We hope at least that Pittsburgh will do her whole duty in this matter in one or the other ways suggested.

THE COURTS.

U. S. District Court—Judge McCandless.

Thursday, February 16.—The trial of Abraham Shaffer, of Washington county, for passing counterfeit money, was resumed in this Court. Our previous report closed with the testimony for the Government.

Major A. M. Brown opened for the defense, and after a brief speech the following testimony was adduced:

William McMinn, sworn.—I reside in Finley township, the same township where Abraham Shaffer resides; he is a farmer and deals in cattle; there was a woman in our place about the last of April or the first of May, who went by the name of Mrs. Ankenney; she came there about the first of May, and lived with William Ankenney; they left in July, and I think the woman moved her things away in August; they lived on John Shaffer's land, adjoining mine; heard this woman (Mrs. Ankenney) threaten to cut the heart out of Abraham Shaffer and dance upon it; never heard anything said about the woman's reputation while she was there; she came to the house to get things when she first came there.

Cross-examined—My wife was present when she made this vile threat; she was blaming Schaffer for trying to take her man away and influence him against her; she was angry, excited, and in a very bad humor.

Re-direct—Schaffer's reputation for truth and honesty in the neighborhood is good.

Re-cross—Heard a man named Burns say his character was good since the trial; never heard Schaffer spoken of as a counterfeiter before this trial.

Elizabeth Burns testified that she lived with defendant three years last September; was his sister-in-law; there was a counterfeit ten dollar note that had been about the house from the winter before: the boy had it to play with; I saw it in the cupboard about two or three weeks before the arrest.

John Oakley, sworn—I live with Abraham Schaffer; have lived with him since last October; I remember when I went there I saw the little boy playing about the house with a note; it was not kept concealed; I saw it twice afterwards; it belonged, I believe, to the Central Bank of Rome, New York; the back of it is blurred.

Cross-examination—I came from Philadelphia here; met him on the railroad bridge going to Allegheny; told him I would work and went with him to the Rowley House in the Diamond, and finally went out to live with him.

Alexander H. Burns testified that he resided near Schaffer and had been raised with him; his reputation for honesty was good.

Jeremiah Week testified that he had known defendant since he was a boy, and his reputation was that of an honest man until the difficulty.

Josiah Guy, Sr., an old man eighty-six years of age, testified that he had lived all his life about a mile from Abraham Schaffer, and had never before heard a word against him, until this affair.

John Logan, Wm. A. Guy, Robert McCutcheon, Philip H. Stevenson, Henry Leech, Samuel Stevenson, C. B. M. Smith, Wilson Onstott, Josiah G. Guy, Dr. A. G. McCandless, James Stewart, Robert Hood, John Hicks, Wm. Ellett, Archibald Marshall, John Springer, Frederick Shield, Nelson Jones, Joel T. Ferree, Wm. Adams and Oliver Burns were called, and testified to the excellent character of the defendant.

John Shaffer, sworn—Am brother of defendant; live near him; am owner of the house where Ankenny lived, and rented it to him; I was not at the court-house attending a case in June last; had no business there for myself or another; my brother, Ankenny and myself were not at the court-house about June 1st, or on May 12th.

Cross-examined—Knew of a suit of John Byer vs. E. Shaffer, and of the suit of Black vs. A. Shaffer; don't know that the first suit was called, and that an affidavit was filed and a continuance asked for; did not attend court about June 1st.

Americus Shaffer was next called, and after being sworn, testified as follows: Know William Ankenney; am a nephew of Abraham Shaffer; Ankenney, Shaffer and I were not together on a night in the last of May; at that time I was on the United States jury; was on the jury from the 9th of May till the 1st of June; we three never slept in Shaffer's office; was not at McDonald's on Water street; did not attempt to pass a bill there; did not see Ankenney and defendant there; know Mr. Charlton; remember of giving him a twenty dollar bill; I had had been in Ohio; was traveling; he told me afterwards that the bill was bad; I had no other money, and said I would send it in; I sent the twenty dollar note to him by Abram Shaffer; he was going to town; remember a horse sale between Ankenney and Shaffer about June, 1870, the time Ankenney was out there; was at Ankenney's house; Abe was to pay him $35 or $38; he gave him $25 in five dollar bills; the balance was to be used in getting groceries for the house.

Cross-examined—Was present when the money was paid; the money was paid in Ankenny's yard; it was in five dollar bills; don't know what banks the bills were on; I never passed any counterfeit ten dollar bill at Shousetown; never got one changed there of any kind; I had been in Ohio selling patent medicines; never passed a counterfeit ten dollar note at McDonough's, foot of Penn street.

By the Court—Never got any counterfeit money from Abe; he never sent me out to buy things for him; never gave him good money for bad.

H. D. Gamble sworn—The information in this case was made on the 20th of January last by Thomas Pender.

N. W. Shaffer sworn—Am a member of the Pittsburgh Bar, and brother of defendant; he was concerned in a case during last year; think he was not attending Court about the first of last June; he had no case tried then; John Shaffer was not attending Court; know nothing about Ankenny being there.

Cross-examined—There was a case pending in June last and on the trial list; it was a case against my brother; don't remember that I made an affidavit to have the case continued.

Thomas Jeffrey, re-called—Am acquainted with defendant's handwriting; have seen him write. [Writing which Carolina McQuiston testified that she had received from defendant was produced and examined by witness.] Don't think this is his writing; think I have seen him writing with a pencil; don't know whether this is his or not; think it is not.

N. W. Shaffer recalled—Know defendant's writing; hardly think this is his writing; never saw him writing much more than to sign his name.

Defense here rested.

REBUTTING TESTIMONY.

James Loffman, recalled—Saw Americus Shaffer on the stand; he looked like the man who tried to pass the counterfeit note on me.

Cross-examined—Did not say yesterday, that I know of, that I could not identify him; I think he is the man; he is of the same size and general appearance; live in Allegheny and work on this side.

P. McDonough, sworn—Am at the foot of Penn street; there was a counterfeit bill passed on me, [note produced]; this is the bill, Americus Shaffer, who was on the stand, looks like the man who passed it; it was in May or June last.

Cross-examined—I kept tavern: the bill was passed about nine o'clock at night; the person who passed it was a tall young man; looked to be about twenty-five or twenty-eight years old.

Owen Hughes, sworn—Live at No. 167 Wood street; keep an eating saloon; there was a new ten dollar counterfeit bill passed on me on Saturday night week; Americus Shaffer looks like the man who passed it.

Charles Mondroch, sworn—Am Deputy Prothonotary. [Papers filed in Prothonotary's office in the case of Childs & Sample vs. John Shaffer produced.] The papers were filed in our office. The papers show that an affidavit of defence was filed in the case on June 4th, 1870.

The testimony here closed and Major Brown addressed the jury on behalf of the defense. He was followed by District Attorney Swoope for the Government, and at a quarter past three o'clock yesterday afternoon His Honor Judge McCandless delivered the

CHARGE OF THE COURT

to the jury. After a few preliminary remarks, reference was made to the fact that in a former period counterfeiting had been carried on extensively in the district, but that severe sentences in the cases of the guilty parties had taught them that this district was a dangerous place for counterfeiters. The district then was for a time free from the affliction; but recently it had broken out again and had almost become an epidemic. The Government officers had been active and it was necessary that the offenders be punished. The protection of the community demanded it. When the sovereign or government issued money, it was essential that that money be protected. If every man was allowed to make the money, even though it was so perfect as to deceive all who handled it, then the Government issue must be deprecated, and it was easy to be seen that financial ruin would be the result. Hence the importance of counterfeiting cases and the severity with which the law should be meted out to the offenders.

Reference was then made to the testimony. This had been presented and it was for the jury to decide upon the actual facts. It was the duty of the Government to show not only that the money was passed and that it had been passed by the person indicted, but more important than all, that it was passed knowingly by the person charged with the offense. A man might pass a fifty cent note which was bad and yet not knowingly do so, being unacquainted with the character of the money. The jury in such a case could not convict a man of crime. But if it was shown that the man had passed or attempted to pass other counterfeit money and that some of it was found on his person, then the jury might fairly presume that he was engaged in the business.

As far as the evidence of character went, it could only be admitted to have any weight when the evidence raised a doubt in the minds of the jury. If the witnesses were not believed, or if their testimony was contradictory so as to raise any doubt then the evidence of good character might be considered in the defendant's behalf, but unless the *evidence raised the doubt* the previous good character of the defendant could not legally have any weight with the jury.

Neither should the jury be influenced by any consideration of the consequences of their verdict. Judge or jury had nothing to do with that. The law prescribed the penalty for its violation and the criminal must suffer accordingly. As men they might sympathize with a prisoner, but as jurors, sworn to render a true and honest verdict, they could only consider the evidence and make up their minds from that. They had the facts before them and to them the law looked for its maintenance. If the prisoner had broken the law he should be so returned; if not, he should be acquitted.

The jury was then instructed that they might bring in a verdict of guilty in manner and form as indicted, or the counts might be separated; and innocence in one and guilt in the other returned, or all of them might be thrown out and the defendant acquitted.

They then retired, and Court adjourned until this morning at ten o'clock.

District Court—Judge Kirkpatrick.

Thursday, February 16.—In the case of Isaac Walker vs. Edward Dethridge, reported yesterday, the jury to-day returned a verdict for plaintiff in the sum of $708. Notes of trial filed.

McNash & Butler vs. Furman C. Duff action on account. Verdict for plaintiff for the sum of $173.

James McNeil vs. Alexander F. Reed, et al., action on a promissory note. On trial.

Following is the trial list for to-morrow.

103	McCombs vs. Perchment et. al.
114	Stutz vs. Calvin et al.
115	Brehm vs. Calvin, et al.
117	Mueller vs. Calvin et al.
	Maratta vs. Niop et al.
127	Hall vs. Scanlon.
129	Beaney vs. McDonald.

Common Pleas—Judge Collier and Stowe.

Thursday, February 16.—In the branch of this Court over which Judge Stowe presided, the case of Wright et al., vs. James Davis, et al., action in ejectment was resumed and is still on trial.

The case of Hoffman vs. Hoffmeister is still on trial in the branch of this court over which Judge Stowe is presiding.

To Whom it May Concern.

Would it not be well for some one in authority to see that the broken rail on the Soho Bridge is repaired at once. As it is the chances are that on a dark night persons passing that way may walk over into the river about forty feet below.

In this connection we would also call the attention of the authorities to the board walk leading from Thirty-third street to Bloomfield. We have been informed that it is in a very dangerous condition.

THE CANTATA SOCIETY.

Home Talent and How Appreciated—The Second Concert a Brilliant Success.

The concerts of the Cantata Society given during this week, while very successful in every other way, were financial failures, involving actual pecuniary loss to the members. It is somewhat singular that amateur talent in our community fails to attract proper encouragement, since it would be libelous to assert that our people are not as appreciative of art and as refined and cultivated in general as those of other large cities, for the very contrary holds good. When foreign opera troupes visit us we are certain to greet them with large, brilliant, fashionable, appreciative and critical audiences. Indeed, so conspicuous are we in our devotion to the fine arts, that nearly all classes of local society live in rosy expectation of a concert heralded in advance, and the advertising pioneer of the art combination can flatter himself that he has, in his advertisements, furnished food enough for all society talk and art gossip from the moment of his arrival to the hour of the concert he announces. It is not asserting too much to say that few other cities in this country contain an amateur association of sweet-voiced and cultured vocalists superior to our own Cantata Society. In this association we have clustered together before the shrine of music, over one hundred ladies and gentlemen, sincerely devoted to a study that a life-time never completes, and the most of whom possess true talent of no common-place character. They are close students, and the process of training them for concert and chorus singing involves a tedious routine of downright hard mental and lung labor. Primarily their object is to acquaint themselves with the higher and more artistic or classical school of music, and secondarily to correct and elevate the public taste for pure melody and happy harmony. Their concerts are labored efforts, and will certainly compare favorably in force, beauty and spirit with the best chorus offerings of the professional artists who occasionally come this way. It may be possibly urged, perhaps, that the selections of the society for concert occasions shoot too high above the appreciation of ordinary people in the musical manner of speaking. This objection has its force, for we believe that the programmes of both the late concerts might have been lightened with more familiar music; but, conceding the fault in these instances, nearly all the Italian Opera troupes are guilty of the same shortcoming, for we do not remember to have ever heard "Rock me to sleep" or "My old Kentucky home" introduced in the operas of Martha, Faust or the Huguenots, and yet such diversion between acts might have vastly pleased a large majority of the auditors. We take it that there is little excuse left for those people who utterly ignore home talent and home exertions to cater to their pleasure by our amateur artists, and most especially in the case of the Cantata Society in which organization and close training are joined with true merit and an earnest desire to please. Just in proportion as we encourage art in our community, we elevate the tone of society and strengthen the public morals, and this fact should not be so disregarded as it seems generally to be. We hope for a better state of things hereafter, and that our good people will not husband all their smiles *and all their dollars* to lavish exclusively on nomadic troupes who drop into our midst to interpret well or indifferently the art divine. These remarks bear even more forcibly in another direction, which our local artists devoted to the pallet and easel can testify, for their efforts in all directions to incite the people to encourage their branch of art, have been discouraged and almost virtually frowned upon, a fact being asserted now in the beggarly attendance at the art gallery. However to the concert of last evening about which we started to write.

The attendance last night was fair, but it should have been much larger. The house was only comfortably filled and yet the audience was such as warranted and called for the best exertions on the part of the singers, as those present conspicuously represented the consistent and constant patrons of local art matters. The chorus was not quite so strong as on Tuesday evening, as only some sixty ladies and gentlemen appeared on the stage to participate in the vocalizations. Prof. Tetedoux directed with his usual grace, dignity and correctness, while Mr. Charles C. Mellor presided as accompanist at the piano with marked ability and precision. The devotional cantata, divided into five anthems, of "Come, let us sing," Mendelssohn, opened the evening's entertainment. The solo executions of Mrs. C. C. Mellor and Miss Clara Evans, and the tenor of Dr. J. G. McCandless, elicited hearty applause, while the grand and powerful chorus charmed and delighted the audience into ecstacies of pleasure. The "Yachtman's Song," by Mr. W. B. Edwards, followed, and was so cleverly rendered as to elicit a hearty encore, to which he responded by singing several verses of that wierd, quaint song, "Down among the dead men," in his own exquisite manner. Mrs. Mellor next rendered the "Flower Girl" in a style of art which added no little to her high reputation as a superior and accomplished vocalist. In response to a vociferous and unyielding demand for repetition, she sang the humorous song, "Nothing else to do," in an unexceptionable way. Prof. Ebert's new composition entitled "Morning and Evening," and dedicated to our charming singer, Miss Kate Northam, was next rendered by the Society, the lady just mentioned sustaining the leading part, or soprano solos. She was suffering from a severe cold, and while she did not do her naturally full and splendid voice full justice, still her singing was universally accepted with much favor. The composition as interpreted by the Cantata Society abounds in melody, sentiment and harmy, and is a choice contribution to the musion boquet Prof. Ebert has furnished our people during his stay among us.

In response to requests, coming from different sources, the second part of Schumann's "Dreaming," which created such enthusiastic admiration when rendered on Tuesday evening, was repeated with still finer effect. On this one artistic rendition the Society might safely rest its claims for acknowledgment and popularity, for it could hardly be presented in a more acceptable manner by the same large number of voices. The composition in itself sweet, soul-subduing, rapturous and ravishing, calls for the blending together in soft, mellowing cadences the deep bassos, the silvery sopranos, the mournful altos and powerful tenors. The Cantata Society rendered it so exquisitely and harmoniously, as to enchain the audience and hold each one spell-bound in silence until the last soft note faded dreamily away and the reverie was at an end. The house rang with applause on the conclusion of this remarkably fine execution. An Italian duet by Messrs. Paul Zimmerman, tenor, and William Roe, bass, was very finely rendered, and in response to a demand for repetition the concluding verses were again rendered. Mrs. M. A. Woodward followed in the pretty, though very difficult song "Flow on, Silver Rhine" in which she also developed her fine cultivation of voice, but it was in "Swiss Echoes" rendered in compliance with an encore that she displayed to greatest advantage her power as a vocalist, and her command over all the finer shades of voice and trills and swift and easy passages from the lowest to the highest scales in music. The "Spinning Wheel quartette," a gem from the opera of "Martha," was delightfully rendered by Mrs. C. C. Mellor, Miss Flora Naumburg and Messrs. J. G. McCandless and R. E. Breed, and the audience demanded and obtained its repetition. "Did'st though but know," a plaintive love song, was next sung, with all his peculiar grace and ease, by Mr. Paul Zimmerman, than whom, we think, there are few finer tenors in this country. He was warmly encored, but bowed his way out of acquiescence. The sad, imploring air "Alas! those chimes," from the opera of "Maritana," was rendered in a truthful manner by Miss Mary Scott, a lady gifted with an exceedingly sweet voice which she has under thorough command and fine cultivation. In response to a rapturous encore she rendered the good old ballad "Mollie Bawn" much to the satisfaction of the audience. Next followed "The Photograph," an amusing and fun provoking duet which, to use a common theatrical expression, fairly brought down the house. It was offered in an exceedingly sprightly manner by Mrs. Maria Leazure and Mr. Edward Rinehart. The really wild applause which followed this duet may serve as a hint to the society in making up future concert programmes—spice improves things amazingly. The largo of the second act of Traviata by Mrs. C. C. Mellor, Miss Mattie Johnston, and Messrs. Paul Zimmerman, Joseph Abel, W. B. Edwards, W. Roe, W. Loefler, R. E. Breed and a chorus of over fifty voices concluded the evening's entertainment, and the audience retired with enlarged ideas regarding the finish, cultivation and talent of the ladies and gentlemen making up the Pittsburgh Cantata Society, and the members themselves, we presume, cast accounts to discover how much they might have pecuniarily suffered through the lack of appreciation for home talent on the part of those who failed on both concert occasions to put in an appearance.

KILLED BY THE CARS.

A Flag Man Loses His Life—Knocked Down and Dragged Along the Track—Horribly Mutilated.

A painful accident occurred on the Allegheny Valley Railroad last evening, which resulted in the death of an employe. James O'Hara, the victim, had been employed by company for several years in the capacity of laborer, and by his steady habits had given the highest satisfaction. A few days ago the flag man in the Sixteenth ward took sick and O'Hara was

TEMPORARILY PUT ON DUTY

in his place. He had charge of the curve in the track near Sixteenth street, between Hussy, Wells & Co's., and Coleman's mills, where the road winds around in two short curves not unlike the letter S. It was his duty to proceed ahead of all trains and clear the track until the dangerous place had been passed.

Last evening at about six o'clock a freight train came up and O'Hara, started ahead to clear the way. Being a new hand it is supposed he miscalculated the speed of the train, and before the engineer had observed him, he was knocked down by the locomotive. The body was then dragged along the track for about half a square before the train could be stopped. It was then found that it had been painfully mangled, pieces of bone and flesh and skull being scattered along the track all the way from the point where the man had been struck.

A great crowd was immediately collected about the spot, but no one seemed willing to

GATHER UP THE REMAINS.

Word was sent to the office, and Assistant Superintendent Thomas M. King came out, when the services of Mr. Burns, undertaker, were secured. The body—what was left of it—was coffined and taken to his establishment on Sixth avenue.

Coroner West, who had also been sent for, came upon the ground and empannelled a jury, after which the inquest was adjourned until this morning at ten o'clock.

O'Hara was a man about thirty-five years of age, married and resided on Fifth avenue near Soho. He leaves a widow and two children.

The case will be fully investigated to-day.

An Act

To extend to the bituminous coal sections of the Commonwealth the provisions of the act providing for the health and safety of persons employed in coal mines, approved the third day of March, one thousand eight hundred and seventy.

Section 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted, by the authority of the same*, That all the provisions of an act of the General Assembly of the Commonwealth entitled, "An Act providing for the health and safety of persons employed in coal mines," approved the third day of March, one thousand eight hundred and seventy, shall be, and they are hereby, extended to and made applicable to all bituminous coal mines or collieries within this Commonwealth with like effect as if the said act originally applied thereto.

Sec. 2. That the said bituminous coal sections in this Commonwealth shall be divided into districts by counties as follows: the counties of Greene, Fayette, Washington, Westmoreland, Allegheny, Beaver, Armstrong and Butler, shall constitute the first district; the counties of Warren, Lawrence, Mercer, Crawford, Forest, Cameron, Venango, Clarion, Jefferson, M'Kean and Elk, shall constitute the second district; the counties of Cambria, Somerset, Bedford, Blair, Huntingdon, Fulton, Indiana, Clearfield, Centre and Mifflin, shall constitute the third district; and the counties of Tioga, Lycoming, Bradford, Sullivan, Potter and Clinton, shall constitute the fourth district; and upon the passage of this act, the Governor of this Commonwealth shall, upon the recommendation of a board of examiners, to be appointed as hereinafter provided, appoint one properly qualified person to fill the office of inspector of coal mines for each of said districts herein before described, and the said inspectors shall be possessed of like qualification, subject to like penalties, be required to take the same oaths, provide themselves with like instruments, shall be subject to like regulations, perform like duties, and entitled to like privileges and salaries as are provided for and conferred upon inspectors of anthracite coal mines, by the act entitled "An Act providing for the health and safety of persons employed in coal mines," approved March the third, one thousand eight hundred and seventy, and the board of examiners herein before referred to, shall be appointed as follows: the Judges of the Court of Common Pleas of Allegheny county shall appoint one reputable mining engineer as one member thereof, the Judge of the Court of Common Pleas of Mercer county shall appoint one reputable coal miner in practice, as one member thereof, the Judges of the Court of common Pleas of Fayette county shall appoint one reputable coal miner in practice, as a member thereof, the Judge of the Court of Common Pleas of Tioga county shall appoint one reputable mining engineer, as one member thereof, and the Judges of the Court of Common Pleas of Clearfield county shall appoint one reputable coal miner in practice, as one member thereof, and the said board of examiners shall consist of five members, all of whom shall agree in their recommendation of inspection to the Governor, shall be entitled to five dollars per day, for every day actually employed in their duties, and be entitled to six cents per mile for each mile traveled in the necessary travel to and from the meetings of said board, and the said examiners shall be appointed at the first session of said Courts after the passage of this act, and shall meet for organization at the Logan House in Altoona, on a day to be fixed by the majority of said board. The said board shall not sit more than thirty days in any year, and they shall be paid for their services by the State Treasurer, upon the warrant of the Judge of the Court by whom they shall have respectively been appointed, which warrant shall only be drawn after full proof made of the performance of the services herein provided for, and the said board of examiners shall perform like duties, and be qualified in the same manner as is provided in regard to the board of examiners, in the act herein before referred to, and vacancies in said board shall be filled by appointment by the Judges of the Court of Common Pleas by whom the original appointment shall have been made.

Amusements.

Pittsburgh Opera House.—Mr. Adams was again greeted by a large and appreciative house, on his rendition of the part of Rover in "Wild Oats" last night. This sterling play affords Mr. Adams an excellent opportunity for the display of his histrionic abilities—an opportunity which we need hardly say was not thrown away. The bill for this evening is "Honor," in which Mr. Adams will sustain three characters. The performance will conclude with "The Pretty Housebreaker."

Trimbles Varieties.—The benefit given by Manager Aims for the Southside sufferers yesterday afternoon was a decided success. "Paris Surrendered" and other specialities are on the bills for to-night, in which the Blondes and the other talented members of the company will appear. A matinee at 2:30 to-morrow afternoon.

The Rink.—A solid body of ice at the Rink, clear and smooth, together with Callie Curtis and Frank Swift, as the stars, should be sufficient to attract an immense crowd of those who have the least appreciation of skatorial amusements. Manager Brown has arranged for the appearance of these two skaters, with great care and the most enjoyable carnival of the year may be anticipated. To-day they will appear on the ice, and go through some of the most difficult and graceful movements. To-morrow the great match for the championship will take place.

Great Bargains—New goods, new attractions, in Evans' .10, .25, .50, .75, $1 00, $1 50, $2 00 and Miscellaneous Departments, 59 Fifth avenue, Masonic Hall building.

The Patent Collar and Cuff Button sold at Evans' Department Store, gives universal satisfaction, 59 Fifth avenue, Masonic Hall building.

SOUTH SIDE CONSOLIDATION.

Meeting of the Joint Committee—Further Action Proposed.

A meeting of the Joint Committee, appointed in reference to consolidation on the South Side, was held last evening at the office of Justice Salisbury. There were present Messrs. Duncan, Doyle and Schwarm, of Birmingham, and Jones and Ihmsen, of East Birmingham. The matter was discussed fully and freely, after which two committees were appointed to bring the matter before the authorities of the other South Side Boroughs, and endeavor to secure their co-operation. Messrs. Schwarm, Doyle and Duncan were appointed to consult with the Councils of South Pittsburgh, Mt. Washington and Allentown, and Messrs. Ihmsen and Jones with those of Ormsby and Lower St. Clair. Another meeting was then fixed for next Thursday evening, at which time it is expected the committees from the other Boroughs will be in attendance.

Committee Meetings.

Last night the Water Committee held a meeting and instructed the Superintendent of Water to lay the water pipes on Penn avenue as soon as the weather would permit.

The Street Committee also held a meeting. The most important item of business was the reception of a communication from the managers of the Oakland Passenger railway in which it was stated that the Company, although in straitened circumstances was now ready to pay all clames which the city might have against them. It was suggested that a committee to be appointed investigate the matter. In accordance there with a sub-committee of fivew as appointed to consult with the company and report.

A remonstrance very numerously signed was presented against the opening of Locus street. The remonstrants contended that the opening of Forbes street had entailed upon them all the tax they were at present able to bear. The Committee resolved themselves into a Committee of the whole to visit the place previous to their next meeting.

Routine business occupied the remainder of the evening.

GENERALITIES.

Charles Matthews is bound this way from Australia.

Nilsson is to return to Louisville, where she has already sung.

Massachusetts has a State income tax, and an effort is making to have the Legislature repeal it.

Pop-corn is called the father of the cereals—Par snip's claims must not, however, be overlooked.

The Asphalte Pavements in Paris during the siege were, it is stated, exclusively used for fuel in the chocolate factories and rice mills.

Newton Booth is a new candidate for the Republican nomination for Governor of California. He is said to be an able man, and of tried integrity.

One of the banners carried by the 'Frisco Germans, in celebrating the fall of Paris, was inscribed: "New dish—Frogs smothered in Sauer Kraut."

The York *Daily* and the Pittsburgh *Paper* would do well to consolidate. Two such senseless, awkward names united would merely make another.

The Cincinnati *Enquirer* says that Mr. Gough's audiences have hitherto been "good people who had an appetite for buffoonery, but whose painful piety precludes them from attending a circus."

The New York *Standard* has a review of Booth's *Richelieu* the writer of which, if he was not drunk when he wrote it, ought to be, tried for murder and acquitted at once for he is evidently quite without wits.

Nilsson having become fully acclimatised in Cincinnati, and recovered from the serious effects that town had upon her health, has bravely permitted herself to be announced for a re-appearance in Pike's Music Hall.

A good mother at Harrisburg, Pa., put croton oil pomade on the heads of her heirs to make them look decent for church; but worldly vanity so turned their minds from holy things that they wouldn't stay to hear the sermon.

Mlle. Tulee is the "coming woman.' As yet she has not appeared in public, but at a recent private rehearsal in London she succeeded in what not one of her sex has ever before accomplished—she turned a triple somersault.

The World tells how, last Sunday everything was frozen up in the "gelid blue air." "Gelid" is highfalutin for "cold." It is hard to find a New Yorker at this time of the year who hasn't a bad gelid—*Louisville Courier-Journal*.

The year before last three hundred and eleven persons were killed by tigers in the Madras Presidency. One tigress, which, much to the relief of the Madrasee mind, has lately been shot, is reputed to have carried off in a series of years 140 persons.

Several astronomers of reputation think they recently have noticed changes in the color of the disc and belts of the planet Jupiter. Mr. Airy, the English Astronomer Royal, is not, however, disposed to admit that such changes have actually been detected.

A cow in a Connecticut barn the other night parted its halter and savagely attacked a horse standing in the next stall. The animal apparently resisted desperately, but was found next morning nearly dead, its bowels protruding from the wounds caused by the horns of the cow.

Rev. Dr. W. H. Lord, of Maine, must be a faithful clergyman. He has refused an offer of $6,000 year from the church in Hartford, though his present income is only $2,000. He has been settled twenty-four years in one place, and is unwilling to sever old friendships and associations.

The pine forests of Pennsylvania are rapidly melting away. For ten years past the consumption of timber to supply the numerous saw mills at Williamsport alone has been immense. The amount of logs rafted out of the boom for the present season will cut over 215,000,000 feet of boards.

The New York *Evening Mail* says: Plain hair is rapidly becoming the fashion. How sorry we are for the unfortunate girls who have ruined their front hair by a long course of hot iron and crimping pins. We wonder if false fronts, such as old ladies used to wear, will be adopted to hide deficiencies?

It is reported that Mr. Gladstone's eldest son is likely to accept the post of assistant clerk in the House of Lords, with a salary of $6,000 a year. Although of respectable attainments, he is never likely to make a figure as a debater, and would probably exercise a wise discretion in securing a comfortable provision.

On Tuesday, Albert Bierstadt, the artist, was making some chemical experiments in his studio, with reference to an entirely new process of illustrating books and papers, when the chemicals exploded, burning him somewhat. Mr. Bierstadt claims that the chemicals he uses are not more dangerous than those used by photographers, which is more or less reassuring.

At the Illinois Valley Coal Mine Company's shaft, three miles from La Salle, on Friday last, a miner named Knowles stepped into the cage to descend to his work. The engineer, instead of lowering the cage hoisted it, and Knowles, apprehending danger from contact with the pulley, jumped for the landing from which he had started, but instead of alighting on it he struck his head against a post and was dashed backwards into the shaft, and fell a distance of 530 feet He was killed.

The Wealthiest man in Hungary Ladislaus Ghillanyi, died recently at Eperjes, in Hungary. Although the possessor of many millions and eighty years of age, he was so stingy that he preferred to die rather than expend a few cents in order to procure the medicine which the poor house physician had prescribed for him. He was without chick or child, and his immense fortune was bequeathed to a distant relative on condition that he should expend only a very insignificant sum annually.

On a recent evening in Naples, Prince Teora, returning from his palace from a drive with a friend, pounced at one bound on a men waiting before the door and stabbed him with his dagger, at the same time the unknown plunging a daggar into the Prince's eye, drove it through his skull. Both fell dead. The cause of this unusual demonstration was jealousy on the part of the Prince, who had seen his victim Signor Stettler, in his wife's box at the San Carlo theatre. It is pleasing to relate that his suspicions were unfounded

The restoration of the German Empire under King William is said to be anything but popular in Russian court circles, and Emperor Alexander is reported to have expressed his disapprobation of the course adopted by the Prussian King in the plainest terms. The present exchange of friendly sentiments between Austria and Prussia is also calculated to awake the jealousy and dissatisfaction of the Russian bear who regards now Austria more than England as the stumbling block of the hereditary Russian policy in the past.

THE STATE.

President Hays of Washington and Jefferson College lectures to night at Beaver.

Mr. A. C. Franger of Greensburg was severely injured by being thrown from a buggy with which the horse was running away, last Sunday week.

Some villain entered the stable of a man named Croup, near Centreville, Venango county, a few nights ago, and cut off the leg of one of the horses.

The entire wooden portion, just recently erected at a very heavy expense, of the Glamorgan Iron Works structure, at Lewistown, Pa., was burnt down on Friday morning last. The amount of loss and cause of fire not ascertained.

Many of the mills in Chester county, have been compelled to stop work for the past few weeks on account of the low stage of water, and the hard freezing weather. The streams were never known to be so low at this season of the year.

Three colored jurors have been drawn in Erie county for the March term of court—H. Burley, of the city, employed in the Erie Second National Bank; Wm. Bladen, of Mill Creek, and Chas. Vosburg, whom everybody will remember as the great big jolly hack driver.

The Armstrong *Republican* says: On Friday evening last, a boy named Lambertser, aged about thirteen years, was instantly killed in a coal bank, at Monticello furnace, by a portion of the roof of the bank falling in on him. There were others in the bank at the time, but all escaped without injury but the unfortunate boy.

Dr. Evelyn O. Porter, assistant editor of the Bedford County *Press*, died of consumption, at the residence of D. S. Elliott, Esq., in Bloody Run, the 7th of February, aged thirty years. He was found dead in his room. He was a fine scholar, having been educated for an Episcopal minister. He subsequently graduated at Jefferson Medical College, Philadelphia.

A young man named Josiah Hileman, from Armstrong county, and employed on a timber job for Mr. John Weaver, two miles from Burnsides, Clearfield county, had his leg so badly crushed by a falling log on Tuesday, the 24th ult., that amputation was necessary to save life. Mr. Hileman is lying at the residence of Mr. J. A. McGhee, and at last accounts was getting along well.

The Clarion *Democrat* says: We greatly regret to learn of a serious accident resulting in the death of Mr. Thomas F. Black, of Farmington township, on the 2d inst. He and others were cutting down timber and a falling tree lodged against and broke off part of another tree, which fell on Mr. Black, killing him on the spot. He was one of a number of brothers, well and favorably known in this and Forest counties, and by our lumbermen generally.

The Chester *Republican* says: While the Delaware is completely closed with ice a short distance below the city, the harbor at this place is entirely unobstructed, and vessels can arrive and depart at will, without the aid of steam tugs or ice boats. Chester is the "Winter Harbor" of Philadelphia, twenty miles nearer the ocean, with no obstruction whatever. The way is open for vessels drawing any amount of water, and there is no "Horse Shoe," nor shallow water to contend with.

We find the following in the Gettysburg *Sentinel*: We are informed that a young lady named Bowman, residing with her brother-in-law, Mr. George Sell, at Plum Creek, a mile west of Hanover, had a very narrow escape from burning to death on Saturday night last. It appears that she had retired to bed at the usual hour and had fallen into a heavy slumber, when about midnight she was awakened by a burning sensation and was startled to discover that the bed in which she was lying was on fire, and that the pain she had experienced was caused by the flames coming in contact with her arms and hands, one of the latter being severely burned. With great presence of mind she rushed down to the kitchen and procured a bucket of water, with which she extinguished the flames without alarming the household. How the bed caught is a mystery, as upon retiring Miss B. did not take a lighted lamp or candle with her to the room. A partially burned match, however, was found lying between the pillows and bolster, and as several matches were lying on the table in the room, the supposition is that it was dragged by mice to the bed, where it was ignited by some unknown means.

LOBBYING.

The Sister of Tennie C. Claflin, the Clairvoyant, Mesmerizes an M. C.

A lady writes to the Chicago *Republican*: "I was present when Miss or Mrs. Woodhull interviewed several members of the House, some of whom, to their honor be it said, could not be mesmerized, and did not relish the apple, but at last came Mr. Julian, of Indiana, who proved an easy prey. The process was perfect. She sat very close to him on the sofa, put her face very near his, and fastened upon him her magic orbs. She laid the tips of her magnetic fingers upon his hand and arm, as if to enforce and make emphatic her arguments. He soon looked dreamy, smiled as if wafted on a sea of bliss, and one could see the apple was tasting very sweet. She talked on until he was completely under her influence, bowing his head and responding, while that sweet, dreamy smile lit up his noble face, till at length she placed in his hands her memorial, which he took, when they gracefully rose to their feet, joined hands while *several* adieus were spoken, *and the apple was swallowed*. Mr. Julian returned to his seat to ask and obtain leave to have the memorial printed in the *Congressional Globe*."

Petroleum in Paris.

Paris, during the siege, was lighted by the regular Gas Company, but instead of gas, lamps burning petroleum were placed inside the lanterns of the ordinary street lamp posts, only one out of every four being used. About 35,000 small petroleum lamps were employed, and the daily consumption of coal oil was about sixteen thousand kilogrammes, or 15.7 tons. The city allowed one cent an hour for the service, and as the lamps were kept lighted for fifteen hours out of the twenty-four, the total cost of lighting Paris was $2,250 a day. The oil used was the same that the city had seized at the commencement of the siege, in order to fill the ditches around the ramparts in case of assault. On January 19th, it was stated that 3,000 tons of petroleum had been used in Paris, and on that date 7,000 tons were still on hand. The shops and restaurants of Paris were also lighted with coal oil, and every place was filled with the odor of horseflesh and petroleum.

SPECIAL NOTICES.

PROFESSIONAL NOTICE.

Drs. Jordan & Davieson,

Principals of the Institution of Anatomy 807 Chestnut street, Philadelphia, Lecturers on Anatomy, Physiology and Science, inform their friends and patients that they have opened a Branch Office for the practice of their profession at 198 PENN ST., Pittsburgh, Pa., where one of the firm may be confidentially consulted for a limited period more especially in all those cases of diseases and debility, for the treatment of which they are so justly celebrated. It is too well known that hundreds, nay thousands, suffer from the effects of early indiscretion, and seek in vain for relief. For none but the educated Physician, who has made these subjects a specialty is likely to succeed in restoring the patient to health and strength.

To all such, Drs. JORDAN and DAVIESON offer certain and speedy relief, and undertake no cases but those in which they are able to guarantee a safe, certain, and permanent cure. Their important Medical Work may be had from their office, 198 Penn street, on receipt of 25c.; and also as usual from their head establishment, 1025 Filbert street, Philadelphia. Hours of consultation, from 10 A. M. till 3 P. M., and from 5 P. M. till 8 P. M.

Every case is strictly confidential.
